I. PURPOSE

This document provides guidance on how to complete the JHURA Agreement Workflow System (JAWS) Intake Form, which is required for submitting agreements for review and negotiation to JHURA. Agreements (especially contracts) may require negotiation by JHURA to ensure compliance with University policies and procedures.

All agreements should be submitted by the department for intake via the JAWS Intake Form. Even in instances where JHURA has approved the Coeus record, JHURA will still ask the department to submit the agreement via intake after reviewing the agreement for programmatic and budget accuracy.

Agreements will fall into two categories:

Funded
A funded agreement (also known as a sponsored agreement) is an agreement that has funding attached to it (a budget.) Select “Funded” if you are submitting a change to a funded agreement (there is already an SAP Grant Number) even if the change does not impact the budget.
- A modification (mod) to an agreement that is funded is considered Funded even if this particular mod does not increase or decrease the funding.

- A No-Cost Extension falls under the funded category if it is an extension to a funded project.

**Unfunded**
An unfunded agreement is an agreement that does not have any funding support. These agreements will not have a budget but can contain a scope of work or description of services to be provided by JHU. Execution of these agreements will not prompt the creation of an SAP Grant Number or revision of an existing Grant in SAP.

- An unfunded agreement, such as a Data Use Agreement ("DUA"), Confidentiality Agreement or Non-Disclosure Agreement ("CDA" or "NDA") should not have any COEUS IPN listed on the JAWS intake form.

- There will be instances where the funded and unfunded agreements are working in tandem with one another. It’s important to make sure each agreement is assigned the correct Agreement Type. Here is an example where an agreement may be associated with a funded project/Coeus record, but should be marked as Unfunded:

  Your PI is teaming with another organization to submit a proposal, and the organization asks JHU to sign an NDA and teaming agreement. Although these agreements are related to a funded contract we hope to receive, they do not involve exchange of money and therefore should be submitted through JAWS as Unfunded agreements.
II. **PROCEDURE**

- **AGREEMENT TYPE**

  Please select one agreement type from the dropdown list. Use this chart to identify the type of agreement:

<table>
<thead>
<tr>
<th>AGREEMENT TYPE</th>
<th>DESCRIPTION</th>
<th>FUNDED OR UNFUNDED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Allocation Agreement</td>
<td>An agreement to share or allocate IP rights between parties.</td>
<td>Unfunded</td>
</tr>
<tr>
<td>CDA/NDA</td>
<td>An agreement that ensures that discussions (between JHU and Entity) are kept confidential while interested parties determine if they should pursue future sponsored activity.</td>
<td>Unfunded</td>
</tr>
<tr>
<td>Clinical Trial Agreement</td>
<td>An agreement that governs the conduct of a Clinical Trial research study and sets forth the obligations of each party to the agreement.</td>
<td>Funded</td>
</tr>
<tr>
<td>Closeout</td>
<td>Documents signifying the end of the award. Commonly known as Final Invention Statement, Final Technical Report, Final Equipment Report. Request for a Final Invoice or Final</td>
<td>Funded</td>
</tr>
</tbody>
</table>

**USEFUL TIP**

If you list a COEUS IPN on the JAWS intake form, such as the COEUS IPN for the funded award that is related to this unfunded agreement, then the JAWS record will be populated with the wrong info, because JAWS will pull the info from the funded award as opposed to the agreement you want JHURA to now sign.

**IS THIS AGREEMENT FUNDED OR UNFUNDED?**
Consult the Agreement Type chart above to help you determine if your agreement is funded or unfunded. Direct any questions to your Contracts and Grants Associates.

**Funded:**
- Often known as a grant, contract, cooperative agreement or sponsored agreement.
- Always involves some kind of funding, with two exceptions: Modifications to existing sponsored agreements, and No-Cost Extensions.
- These agreements are considered funded because they result in changes to the Grant Record in SAP, such as an extension to the Period of Performance.
Unfunded:

- Does not involve funding. Execution of the agreement will not result in the creation or revision of an existing SAP Grant Record.
- Common unfunded agreement types are CDA/NDA, DUA, and Teaming Agreements.

A NOTE ON NO-COST EXTENSIONS

Requests for a No Cost Extension do not go through the JAWS intake process. Only No-Cost Extension approvals are sent through JAWS. Please consult the JHURA No-Cost Extension for Departments Standard Operating Procedure for the complete process.
Funded
(This request will require a new SAP grant number to be set up or update to an SAP grant number. This includes all Coeus record types, and No-Cost Extensions.)
Choose the "funded" radio button.

Coeus Institute Proposal Number Required
Enter the 8 digit Coeus IPN identifier here.

Has the Coeus information been modified since approval of the record?
This includes changes in budget, scope of work, PI, key persons, compliance questions updates, etc.

Yes
Choose if any Coeus record information has changed since submission of the proposal.

Enter a description of what has changed from the proposal stage to the award stage in the text box.

Please attached any relevant documents. May include modified budget, scope of work, and budget justification.

No
Choose if any Coeus record information has not changed since submission of the proposal.

Move on to next question.
Unfunded

Agreements that have no funding attached and will not necessitate an update to SAP. If this is a mod and the underlying agreement is funded, then the mod should be considered funded even if this particular mod does not include any funding changes.

Choose the "unfunded" radio button.

Move on to next question.

USEFUL TIP

The "Correct IPN" means the IPN that matches the agreement/amendment you are submitting to JHURA to sign.

- For example, if you are submitting an amendment to add time and money, you would generally list the IPN of an associated supplement PD record (and NOT the original IPN from the original award, unless the original proposal already anticipated and included these funds in its budget).
- If you are submitting a task order, the correct IPN to list would be the IPN generated after JHURA approved the related PD record with proposal type "task order" (and not the original IPN linked to the "master agreement" COEUS PD record).
