Can’t Launch Coeus – fixing Java security issue

1. If, when attempting to open Premium, you see this message:

   ![Java Application Blocked](image)

   **Application Blocked by Java Security**

   For security, applications must now meet the requirements for the High or Very High security settings, or be part of the Exception Site List, to be allowed to run.

   Reason: Your security settings have blocked an application signed with an expired or not-yet-valid certificate from running

   ![OK button](image)

   Follow these steps

   1 (Enter word java in Windows Search field)

   2 (Select Control Panel, Java 32-bit)
Can’t Launch Coeus – fixing Java security issue
