The overarching purpose of the Health Workforce Research Center (HWRC) Cooperative Agreement Program is to collect, analyze, and report health workforce program data to the National Center for Health Workforce Analysis and to the public and provide technical assistance to local and regional entities on the collection, analysis, and reporting of health workforce data.

Through these efforts, the HWRC Cooperative Agreement Program supports and disseminates rigorous and timely research that strengthens evidence-based policy and enhances government’s and the public’s understanding of issues and trends in the health workforce. In this way, HWRC projects help inform health workforce planning and policy at all levels.

The two HWRC topic areas are:

- Health Equity in Health Workforce Education and Training ($1.8 million total costs)
- Behavioral Health Workforce ($3.6 million total costs)

Eligibility & Requirements:
If using the Consortium Model, all members must meet eligibility requirements.
