Opportunity Summary
The purpose of the Developmental-Behavioral Pediatrics (DBP) Training Program is to enhance the behavioral, psychosocial, and developmental components of pediatric care by supporting DBP fellowship programs to train health care professionals to use valid and reliable screening and diagnostic tools, in addition to providing evidence-based interventions for children with autism spectrum disorder (ASD) and other developmental disabilities (DD).

Specific aims of the program are to support DBP fellowship programs to prepare fellows for leadership roles as teachers, investigators, and clinicians, and provide other trainees—including pediatric practitioners, residents, and medical students—with biopsychosocial knowledge and clinical expertise, including with ASD/DD. Awardees should ensure trainees in this program:

- Receive an appropriate balance of academic, clinical, and community opportunities;
- Demonstrate a capacity to evaluate, diagnose or rule out, develop, and provide evidence-based interventions to individuals with ASD/DD;
- Demonstrate an ability to use a family-centered approach;
- Are culturally competent; and
- Are ethnically diverse.

Eligibility & Requirements:
No PI limit.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins)  
   (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
