**Opportunity Summary**
St. Baldrick’s Foundation funds biomedical research in order to better understand the causes of pediatric cancers and to advance its prevention, treatment, and cure. These grants are for specific one-year research projects which are hypothesis-driven and focus on areas related to the supportive care of children and adolescents with cancer. Examples include but are not limited to:
- symptom clusters
- patient-reported outcomes or quality of life
- health communication
- health promotion and
- psychosocial support across the trajectory from diagnosis to survivorship or end-of-life care.

**Current Awardee:** Kathy Ruble, Ph.D.

**Eligibility & Requirements:**
- Applicant must hold at least a Ph.D., D.N.P., M.D./D.O. degree by the date the award becomes effective.
- Ph.D. nurses are encouraged to apply.
- No institutional overhead or indirect funding is provided.

**Internal Nomination Process:**
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins)  
   (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. NIH-template biosketch of investigator (no more than 5 pages)
4. Budget (two pages maximum)
