Opportunity Summary
The over-arching goal of this National Institute of Biomedical Imaging and Bioengineering (NIBIB) R25 program is to support educational activities that enhance the diversity of the biomedical research workforce through early preparation for undergraduate students in STEM fields. Participants should be from diverse backgrounds and interested in ultimately pursuing a Ph.D. or M.D./Ph. D. degree and a biomedical research career in academia or industry. The program activities will take place starting in the summer before the freshman year and ending in the summer following the sophomore year. At that time, participants will be expected to enter an Advanced Honors Program for juniors and seniors which aims to prepare high-achieving, underrepresented students for doctoral programs in biomedical research fields. Therefore, only institutions with a diversity honors program, such as a MARC U-STAR (T34) program or an institutional program with similar goals, active at the time of application, are eligible to apply.

Eligibility & Requirements:
- The PD/PI should be an established investigator in the scientific area in which the application is targeted and capable of providing both administrative and scientific leadership to the development and implementation of the proposed program. The PD/PI will be expected to monitor and assess the program and submit all documents and reports as required.
- The PD/PI should have a strong history of mentoring and/or designing courses for underrepresented students, as well as experience managing programs of this nature.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins)
   (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
