Opportunity Summary:
The over-arching goal of this NINDS Neuroscience Development for Advancing the Careers of a Diverse Research Workforce R25 program is to support educational activities that enhance the diversity of the biomedical, behavioral and clinical research workforce by (1) increasing the pool of current and future Ph.D.-level research scientists from diverse backgrounds underrepresented in biomedical neuroscience research; and (2) facilitating the career advancement/transition of the participants to the next step of their neuroscience careers.

To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on NINDS relevant research experiences, mentoring activities that enhance competencies or leadership education and courses on skills development. Programs that target transitions and/or more than one career stage for neuroscience career advancement and progression are strongly encouraged. NINDS support for this R25 program relies equally on scientific merit and programmatic considerations.

Eligibility & Requirements:
• The PD/PI must have a regular, full-time appointment (i.e., not adjunct, part-time, retired, or emeritus) at the applicant institution.
• Mentors must be committed to continue their involvement throughout the total period of the mentee’s participation in this award.
• Applications must describe the intended participants, and the eligibility and/or specific educational background characteristics that are essential for participation in the proposed research education program.
• The plan must identify the appropriate career levels essential for participation in the R25 program.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
