Opportunity Summary:
The Alfred P. Sloan Foundation makes grants primarily to support original research and education related to science, technology, engineering, mathematics, and economics. The Foundation believes that these fields—and the scholars and practitioners who work in them—are chief drivers of the nation’s health and prosperity. The Foundation also believes that a reasoned, systematic understanding of the forces of nature and society, when applied inventively and wisely, can lead to a better world for all.

The Sloan Research Fellowships seek to stimulate fundamental research by early-career scientists and scholars of outstanding promise. These two-year fellowships are awarded yearly to 126 researchers in recognition of distinguished performance and a unique potential to make substantial contributions to their field.

Eligibility & Requirements:
• Candidates must hold a tenure track (or equivalent) position at a college, university, or other degree-granting institution in the United States or Canada. Tenure track faculty positions at the candidate's institution must include a yearly teaching requirement.
• Candidates must hold a Ph.D. (or equivalent) in chemistry, computational or evolutionary molecular biology, computer science, economics, mathematics, neuroscience, ocean sciences, physics, or a related field;
• Candidates’ most recent Ph.D. (or equivalent) must have been awarded on or after September 1, 2012. Exceptions may apply.

2018 Sloan Research Fellows:
Janice Chen (KSAS/Psychology and Brain Sciences), Yi Li (KSAS/Physics and Astronomy), Shigeki Watanabe (SOM/Cell Biology), and Suchi Saria (WSE/Computer Science)
