Limited Submissions

Sponsor: National Institutes of Health (NIH)
Program: Collaborative Program Grant for Multidisciplinary Teams (RM1) (Clinical Trial Not Allowed)

Estimated Award Amount: $8,750,000 (direct costs only)
JHU Nomination Limit: 1
For More Detailed Information Click Here

Deadlines:
Internal Application: November 1, 2018
Full Application: January 25, 2019

Opportunity Summary:
This funding opportunity announcement encourages Collaborative Program Grant applications from institutions/organizations that propose to conduct research to address complex and challenging biomedical problems, important for the mission of NIGMS, through deeply integrated, multidisciplinary research teams. The Collaborative Program Grant is designed to support research in which funding a team of interdependent investigators offers significant advantages over support of individual research project grants. Applications should address critical issues and be sufficiently challenging, ambitious, and innovative that objectives could not be achieved by individual investigators.

The Program is designed to support highly integrated research teams of three to six PD/PIs. Collaborative program teams are expected to accomplish goals that require considerable synergy and managed team interactions. Project goals should not be achievable with a collection of individual efforts or projects. Teams are encouraged to consider far-reaching objectives that will produce major advances in their fields.

Applications that are mainly focused on the creation, expansion, and/or maintenance of community resources, creation of new technologies or infrastructure development are not appropriate for this FOA.

Eligibility & Requirements:
• The application is required to be submitted as a multiple PD/PI application, with a minimum of 3 and a maximum of 6 PD/PIs.
• Consultation with relevant staff at least 10 weeks prior to the application due date is strongly encouraged.
• ESIs and new investigators who participate as PD/PIs will lose their early stage status for future NIH applications, but ESI leads of pilot studies will not lose ESI status.
• PD/PIs who have an active NIGMS R35 award can participate as PD/PIs as part of the 51% effort on their current R35 award but may not receive additional funds from this award.
• Applicants with substantial unrestricted research support may receive funding from this award as their one NIGMS grant award, or may participate in an unfunded advisory or consulting role without loss of their ability to receive one funded NIGMS grant, consistent with NIGMS policies.

Internal Nomination Process:
Interested applicants should submit the following documents:
1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins)
   (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
