Opportunity Summary:
This notice solicits applications for a new three-year Special Projects of National Significance (SPNS) initiative entitled Capacity Building in the Ryan White HIV/AIDS Program to Support Innovative Program Model Replication. This Notice of Funding Opportunity responds to recent changes in the HIV epidemic and the need to find effective solutions that improve health outcomes along the HIV care continuum for people living with HIV (PLWH). During recent years, a number of innovative interventions have demonstrated effective responses that contribute to ending the HIV epidemic. Ryan White providers who have developed these evidence-informed interventions have produced replication manuals and other tools to assist organizations and jurisdictions interested in adapting and/or replicating such interventions.

This funding opportunity seeks to build the capacity of Ryan White HIV/AIDS Program (RWHAP) recipients and sub-recipients to replicate effective models of care, with a particular focus on RWHAP jurisdictions identified as disproportionately affected by HIV. By building capacity and encouraging the implementation or replication of effective models of care, the RWHAP intends that these jurisdictions will bring recent innovations to scale, thus improving systems of care, reducing health disparities, improving outcomes along the HIV care continuum, and ultimately contributing towards meeting the goals and objectives of the National HIV/AIDS Strategy.

Eligibility & Requirements:
No PI limits.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins) (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
