Limited Submissions

Sponsor: United States Agency for International Development
Program: Urban Health Research Program

Estimated Award Amount: $5,000,000
JHU Nomination Limit: 1
For More Detailed Information Click Here

Opportunity Summary:
This Broad Agency Announcement (BAA) seeks opportunities to co-create, co-design, co-invest, and collaborate in the research, development, piloting, testing, and scaling of innovative, practical and cost-effective interventions to address the most pressing problems in global health. The United States Agency for International Development (USAID) invites organizations and companies to participate with USAID, in cooperation with its partners, to generate novel tools and approaches that accelerate and sustain improved health outcomes in developing countries.

The purpose of this Addendum is to request Expressions of Interest (EOI) for implementation research to test solutions to address the growing challenges of rapid urbanization and its impact on maternal, newborn, and child health (MNCH) outcomes. This Addendum serves to commence the co-design process around innovative solutions for accelerating gains in MNCH in poor urban settings of sub-Saharan Africa using an iterative approach e.g. implementation research nested in existing programs, interventions or health systems.

Eligibility & Requirements:
No PI limits.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Statement identifying which country you will submit under
3. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins) (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
4. Curriculum Vitae of investigator, including current external research support and publications
5. Estimated budget (two pages maximum)
