**Opportunity Summary:**

The U. S. Agency for International Development India Mission is pleased to issue Round 4 under the Moving Integrated, Quality Maternal, Newborn, and Child Health Services, Voluntary Family Planning, and Reproductive Health Care1 (MNCH/FP/RH) to Scale (MOMENTUM) Annual Program Statement.

Round 4 is focused on efforts to improve maternal, newborn and child health outcomes in India through the implementation of a Maternal Newborn Child Health Accelerator.

USAID is seeking new approaches including harnessing innovations to boost the implementation of high-impact interventions to improve maternal, newborn and child health through a continuum of care approach (pre-pregnancy, pregnancy, delivery, postpartum care, and newborn to young children <5 years old care). This activity will implement a health-system strengthening lens from community, to primary health care centers, to secondary and tertiary care facilities. It is USAID’s vision that this new activity will provide tailored targeted technical assistance to health facilities and the outreach systems of care, while also demonstrating innovative practices, or adapting already demonstrated new technologies, commodities or protocols to improve maternal, newborn and child health.
