Limited Submissions

Sponsor: National Institutes of Health (NIH)

Program: NEI Center Core Grant for Vision Research (P30 Clinical Trial Not Allowed)

Estimated Award Amount: \$2,500,000 (direct costs)
JHU Nomination Limit: 1
For More Detailed Information Click [Here](#)

Deadlines:

Internal Application: August 18, 2020
Full Application: September 30, 2020

Opportunity Summary:

The NEI Center Core Grant combines three or more Resource and/or Service Cores for a group of R01 investigators to enhance their research, consolidate resources, avoid duplication of efforts, and/or contribute to cost effectiveness by providing a service with lower costs or higher quality than could be attempted for independent projects by several individual PDs/PIs. Shared resources and facilities that are accessible to a group of independently funded investigators lead to greater productivity for the separate projects, and can provide instrumentation and facilities that are too costly to be maintained by an individual investigator. The design and purpose of each Center Core may vary in how it serves its users. This program is designed to enhance an institution's environment and capability to conduct vision research and to facilitate collaborative studies of the visual system and its disorders.

A NEI Center Core Grant should increase the productivity and impact of research in eligible projects of the Core users, and should create a collaborative environment to increase scientific interactions. A strong research base of funded projects is an eligibility requirement and a major factor in obtaining an NEI Center Core Grant award. Any institution or consortium applying for a NEI Center Core Grant must have an active, established program in basic, epidemiological, biomedical or behavioral research in one or more of the NEI mission areas described at <https://www.nei.nih.gov/funding/nprp> (<https://www.nei.nih.gov/funding/nprp>).

Eligibility & Requirements:

- The applicant institution must have 8 or more eligible grants. Eligible grants are defined as active NEI-supported R01s. Grant applications in administrative extensions, with or without additional funds, are not eligible. Administrative supplements, revisions, and sub-contracts cannot be counted toward eligibility.
- Institutions may request direct costs of up to \$2,000,000 over a five-year period in support of a Core Grant to institutions having 8 to 19 eligible grants. Institutions having 20 or more eligible grants may request direct costs of up to \$2,500,000 over a five-year period.

Internal Nomination Process:

Interested applicants should submit the following documents:

1. [JHU Limited Submission Cover Sheet](#)
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins)
(Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
