The Macy Faculty Scholars Program is designed to identify and nurture the careers of promising educational innovators in medicine and nursing. The Foundation will support an educational change project in each Scholar’s institution, develop a national network, and provide career advice from a National Advisory Committee. The Macy Faculty Scholars might explore many areas of possible innovations in health professions education. The Foundation has particular interest in the following: interprofessional education to promote collaboration; new models of clinical education that emphasize longitudinal, integrated experiences with patients, families, and faculty; new content in health professional curricula such as quality improvement, patient safety, systems analysis, health economics, and the social determinants of health; education of health professionals to care for underserved populations, including addressing the need for more primary care providers; programs to diversify the health professional workforce; domestic programs that promote understanding of global health and population health.

An informational webinar for interested applicants will be held on December 9, 2020, at 12:00 pm ET. RSVP here to attend the webinar.

Eligibility & Requirements:
Applicants must:
- Be a doctorally prepared faculty member in good standing at the sponsoring school.
- Have served for five or more years as a faculty member, ideally at the sponsoring school.
- Have an educational innovation project with the appropriate institutional support.
- Have an identified senior faculty member who will provide advice on the candidate’s project and career development.
- Have an institutional commitment for the protection of at least 50% of the Scholars time.
- Be a citizen or permanent resident of the United States or its territories

Internal Nomination Process:
Interested applicants should complete their application at the following link:

1. Description of career and personal goals for the program and educational innovation project to be undertaken (maximum of two pages of text only, single spaced: 12-pt font and on -inch margins) (Note: figures, tables, and other reference material may be included in addition to the 2pg. text limit)
2. Curriculum Vitae of candidate, including current external research support and publications
3. Letter of support from mentor

NOTE: Applicants must request their letter through the application portal link above.
