Opportunity Summary:
This NOFO solicits non-research cooperative agreement applications for these components:

Component A: To build upon previous work in chronic kidney disease (CKD) surveillance to continue supporting, updating, and improving the current CKD Surveillance System in the United States https://nccd.cdc.gov/CKD/. This is a comprehensive surveillance system that resides in a website application and integrates existing CKD data from multiple US data sources such as national surveys and registries, health care administrative data, and large cohort studies. This surveillance system will enable the government and others to monitor trends in the burden of CKD and its risk factors over time and also monitor trends in Healthy People 2030 objectives related to CKD prevention and control.

Component B: To provide computer support and technical management, updates, and enhancements to the currently functional and interactive website application of the CKD Surveillance System https://nccd.cdc.gov/CKD/. The website will be used to 1) document the burden of CKD and its risk factors in the United States population over time, 2) disseminate timely and accurate CKD surveillance data and trends, 3) track the progress of efforts to achieve Healthy People 2030 objectives to prevent, detect, and manage CKD, and 4) provide the means for monitoring risk factors and preventive care practices to assist stakeholders in targeting interventions and reducing health disparities.

Period of performance funding is $3,500,000 for Component A and $2,500,000 for Component B subject to availability of funds

Eligibility & Requirements:
- Applicants may apply for one or both components.

Internal Nomination Process:
Interested applicants should submit the following documents:

1. JHU Limited Submission Cover Sheet
2. Proposal (maximum of two pages of text only, single spaced: 12-pt font and one-inch margins) (Note: figures, tables, and other reference material may be included in addition to the 2 pg. text limit)
3. Curriculum Vitae of investigator, including current external research support and publications
4. Budget (two pages maximum)
