

Graduate Student Research Funding Opportunities as of 4/7/2021

Note: Sponsor deadlines and eligibility subject to change. Please consult award website for latest updates.

Sponsor	Program	Description	Eligibility/Requirements	Amount (max, if range)	Deadline (LOI - if required)	Annual Deadline(s)
American Mathematical Society (AMS)	AMS-AAAS Mass Media Fellowship	The American Mathematical Society (AMS) sponsors a Mass Media Fellow each summer through the Mass Media Science & Engineering Fellowship program organized by the American Association for the Advancement of Science (AAAS). This program is designed to improve public understanding of science and technology by placing advanced science, mathematics and engineering students in newsrooms nationwide. Fellows work with media professionals to improve their communication skills and increase their understanding of the editorial process by which events and ideas become news.	The program is available to college or university students (in their senior year, or in any year of graduate school) in the natural, physical, health, engineering, computer or social sciences or mathematics with outstanding written and oral communication skills and a strong interest in learning about the media.	\$6,000 + Travel	1/1/2021	
American Association for the Advancement of Science (AAAS)	AAAS Mass Media Science & Engineering Fellowship		US Citizen or valid USA visa	\$6,000 plus travel	1/1/2021	
Children's Tumor Foundation	Young Investigator Award (YIA)	The Young Investigator Award, initiated in 1985, is CTF's longest running award program, and provides two-year salary support to early career NF researchers, such as senior doctoral students and post-doctoral researchers, to help them get established as independent NF investigators. Since its inception several YIAs have made groundbreaking research findings and notable publications through this program, and many have advanced to become leaders in the NF research and clinical communities. The main function of the YIA program has been to serve as a 'seeding mechanism' for researchers to secure larger grants, such as from the NIH and CDMRP NFRP.	Applicant must be: <ul style="list-style-type: none"> • a graduate student pursuing an MD, Ph.D., or equivalent degree • affiliated with the laboratory of a senior researcher who is the applicant's research sponsor. The sponsor must offer a training environment that is conducive for the growth and education of an early-career NF researcher. As part of the application, the mentor will be asked to describe the intended training plan. • In a given year, more than one member from a laboratory can apply for a YIA. However, only one application per laboratory per year will be funded. • There are no citizenship requirements for this program. CTF seeks and welcomes applications from all qualified individuals worldwide. • An individual may not receive more than one postdoctoral YIA in his/her career. Having had a prior CTF predoctoral YIA award does NOT preclude receiving a postdoctoral YIA award. • Predoctoral YIA awardees are expected to spend 100% of research time on the proposed project, encompassing a minimum 90% effort overall each year. 	\$64,000	LOI: 1/3/2021 Full Application: 3/5/2021	
Fondation for Pierre Elliott Trudeau Foundation	*Limited Submission* Doctoral Scholarship	The renewed Scholarship program of the Pierre Elliott Trudeau Foundation is a gateway for courageous, bold, original thinkers who are hungry to play a leadership role in their communities. The Foundation's three-year program aims to train Engaged Leaders, in order to build the capacity for academics to make their research accessible beyond academia, to partner and work with a diversity of actors across society, and to help address some of the most pressing domestic and global issues of direct relevance for the future of Canada.	Canadian citizens enrolled full-time in a doctoral program outside of Canada	\$180,000	1/5/2021	
Embassy of France in the U.S.	Chateaubriand Fellowship in Humanities & Social Sciences	The Chateaubriand Fellowship is a grant offered by the Embassy of France in the United States. It supports outstanding Ph.D. students from American universities who wish to conduct research in France for a period ranging from 4 to 9 months. Chateaubriand fellows are selected through a merit-based competition, through a collaborative process involving expert evaluators in both countries. The program is divided into two subprograms: Science, technology, engineering, math, and health; and humanities and social sciences.	Candidates must be currently working on their Ph.D. Candidates do not have to be U.S. citizens, but they must be enrolled in an American university. However, French citizens are not eligible to apply. Candidates must obtain a letter of agreement from their advisor(s) in the U.S., as well as a letter of invitation from a professor affiliated with a French university or research institution. Please be in touch with your supervisor in France as early as possible. The history of the research relationship will be taken into account in the review process.	Stipend, health insurance, travel	1/6/2021	
Embassy of France in the US	Chateaubriand STEM Fellowship Program		none	up to 1400 Euros/mos plus travel & insurance	1/6/2021	
Foundation for Physical Therapy	Promotion of Doctoral Studies (PODS) I & II Scholarships		US Citizen or Permanent resident	Up to \$15,000	1/6/2021	

Department of Defense	Physician Research Award	The FY20 PCRP Physician Research Award supports a mentored research experience to prepare physicians with clinical duties and/or responsibilities for productive careers in prostate cancer research. The mentored physician is considered the Principal Investigator (PI) of the application. This award emphasizes equally the quality of the proposed research project and the career development of the PI, which should prepare physicians for careers in basic, population science, translational, or clinical prostate cancer research. All applications for the FY20 PCRP Physician Research Award are to be written by the PI, with appropriate direction from the Mentor(s).	Each investigator may be named on only one FY20 PCRP Physician Research Award (W81XWH-20- PCRP-PRA-2) application as a PI. <ul style="list-style-type: none"> The PI must be a physician with clinical duties and/or responsibilities who, at the application submission deadline, is either: <ul style="list-style-type: none"> In the last year of an accredited graduate medical education program, either as a resident or fellow, or Within 5 years of having initiated his/her first faculty appointment (including Instructor positions). 	\$750,000 (direct costs)	1/7/2021	
Computational & Information Systems Lab	SIParCS Program Internship		US citizen, permanent residency or other protected status	Paid Internship	1/8/2021	
Center for the History of Political Economy at Duke University	Fellowship Program	The Center brings together a mix of scholars who are pursuing their own research projects in the history of political economy	none	Stipend	1/10/2021	
University of San Francisco, The Ricci Institute for Chinese-Western Cultural History	Summer Doctoral Research Fellowship	Chinese-Western cultural history, local society and politics, history of education and other charitable enterprises, history of Christianity in China, history of diplomacy, art and art history, science and history of science, comparative studies of Christianity and cultures in China, and the "Sino-sphere", namely, Japan, Korea, and Vietnam	none	\$4,000/month	1/10/2019	
Graduate Women in Science (GWIS)	National Fellowship Program	The Graduate Women In Science (GWIS) National Fellowship Program promotes knowledge in the natural and social sciences and encourages women's academic and professional careers in the sciences. Endowment funds, mostly generated from bequests, provide the annual income that supports scientific research conducted by GWIS fellowship winners. During the 2020-2021 funding cycle, we distributed \$50,000 in research awards to seven outstanding women scientists and recognized thirteen honorable mentions. Since 2008, we have awarded nearly \$750,000 in research awards. The fellowships are known as the Sigma Delta Epsilon (SDE), Eloise Gerry, Ethel K. Allen, Vessa Notchev, Jean Langenheim, Monique Braude, Nell I. Mondy, Elizabeth Weisburger, and Hartley Corporation Fellowships. The highest scoring SDE Fellowship designee shall be recognized as the Adele Lewis Grant/SDE Fellowship Winner and the second-highest scoring designee shall be known as the Hartley Corporation/SDE Fellowship Winner. The funds available in any one year shall be the income from and contributions to the endowment accounts. The amount thus varies from year to year. The Fellowships Committee reserves the right to make no awards if no satisfactory applicants present themselves. The program is not bound by any estimates indicated in this description.	<ul style="list-style-type: none"> We strive to empower a community representative of all women in STEM and the Social Sciences. In support of our mission to cultivate a strong global community, GWIS seeks to recognize merit-based scholarship and sustained personal engagement with underrepresented communities. Awards will be made to women who hold a degree from a recognized institution of higher learning, who demonstrate outstanding ability and promise in research, and who are performing hypothesis-driven research at any institution in the U.S. or abroad. Any person who identifies as a woman in science, irrespective of race, religion, nationality, creed, national origin, sexual orientation, or age is welcome to apply. Career level (e.g. graduate student through assistant professor) of the candidate will be taken into consideration. Application for the GWIS Fellowship Program is offered at no cost to current GWIS members. For non-members, an application processing fee of \$50 is required. Fellowship applicants that are not already GWIS members must pay the application fee by the application deadline (click here to join). Please note that membership approval can take up to 48 hours, so if you want to become a GWIS member, please do so in advance. Financial need of research funding is a requirement. Project that has already been fully funded by another agency or organization will be ineligible. Applicants must indicate on the application form all pending funding sources as reviewers will consider these factors when assessing the financial need of the project. If, at any point, the applicant accepts another award prior to being notified of the application status with the GWIS Fellowship Program, the applicant should immediately notify the 	\$10,000	1/11/2021	
American Epilepsy Society	Pre-Doctoral Fellowship	AES Predoctoral Research Fellowships support predoctoral students who are pursuing dissertation research with an epilepsy-relevant theme, and who are working under the guidance of a mentor with expertise in epilepsy research. Proposals are welcomed across the spectrum of basic, translational, and clinical research.	none	\$30,000	1/13/2021	

US Department of Energy (DOE)	Computational Science Graduate Fellowship (DOE CSGF)	<p>The Department of Energy Computational Science Graduate Fellowship (CSGF) provides outstanding benefits and opportunities to students pursuing doctoral degrees in fields that use high-performance computing to solve complex science and engineering problems.</p> <p>The program fosters a community of energetic and committed Ph.D. students, alumni, DOE lab staff and other scientists who want to have an impact on the nation while advancing their research. Fellows come from diverse scientific and engineering disciplines but share a common interest in using computing in their research.</p> <p>More than 425 students at more than 60 U.S. universities have trained as fellows. The program's alumni work in DOE laboratories, private industry and educational institutions. The Department of Energy's Office of Science and National Nuclear Security Administration supports the DOE CSGF. Its specific objectives are:</p> <ul style="list-style-type: none"> •To help ensure a supply of scientists and engineers trained to meet workforce needs in computational science. •To make DOE laboratories available to fellows for work experiences, ensuring cross-disciplinary collaborations in productive work teams. •To strengthen ties between the national academic community and DOE laboratories so the fellowship's multidisciplinary nature builds the national scientific community. •To make computational science careers more visible, encouraging talented students to enter the field and thereby building the next generation of computational science leaders. 	<p>U.S. Citizen or permanent resident At the time of application, eligibility will be extended to:</p> <ul style="list-style-type: none"> •Undergraduate seniors •Applicants with no more than B.S. or B.A. degrees who are not enrolled in graduate school •First-year graduate students (M.S. degree or Ph.D. students without an M.S. degree) •Enrolled M.S. degree students beyond their first year provided that they plan full-time, uninterrupted study toward a Ph.D. at: 1) a different academic institution, OR 2) in a different department •Applicants with no more than M.S. degrees who are not currently enrolled AND who will not have been enrolled in graduate school for two years prior to resuming graduate studies •First-year Ph.D. students with an M.S. degree if they 1) completed the M.S. degree within 2 years at a different academic institution, 2) completed the M.S. degree within 2 years in a different academic department, OR 3) prior to current enrollment, they had not been enrolled in graduate school for at least 2 years. <p>During the fellowship period, fellows are required to be enrolled as full-time graduate students at an accredited U.S. college or university and conduct research in areas of interest to the DOE. The summer should be spent conducting full-time research related to the completion of one's degree program, enrolled in classes or on a practicum assignment.</p> <p>This equal opportunity program is open to all qualified persons without regard to race, gender, religion, age, physical disability or national origin.</p>	\$37,000 stipend/yr; tuition and fees; \$5,000 academic allowance up to 4 years	1/13/2021	
Society for Interventional Radiologists (SIR)	Dr. and Mrs. W.C. Culp Student Research Grant	The Dr. and Mrs. W.C. Culp Student Research Grant is designed to foster an interest in research by funding a summer research project conducted by a medical student in an area identified by SIR Foundation as important to the advancement of interventional radiology and patient care. This funding mechanism is intended to provide salary support for students conducting summer research projects that test a new idea or help support a new area or direction of research in interventional radiology.	Grants are available to undergraduates and medical students currently enrolled in a MD, DO, or PhD equivalent degree program in medical institutions within the United States and Canada. Applicants must be citizens of the United States or Canada or have permanent resident status therein. Permanent residents must submit documentation of their status.	\$4,000	1/15/2021	
Roberto Rocca Education Program	Fellowships	For exceptional university graduates from Argentina, Brazil, Colombia, Uruguay, Indonesia, Mexico, Saudi Arabia and Romania, the Roberto Rocca Education Program offers fellowships to help fund studies towards Ph.D. degree in specific fields of study that include Materials Science, Mechanical, and Petroleum Engineering (see Eligibility requirements), at a university of the student's choosing outside his or her home country.	Citizens of Argentina, Brazil, Uruguay, Colombia, Indonesia, Saudi Arabia, Mexico and Romania	tuition, fees and living expense over 2 years	1/15/2020	
Link Foundation	Modeling, Simulation & Training Fellowship Program		none	\$30,000	1/15/2021	
Terra Foundataion	Terra Summer Residency Fellowships in Giverny, France	<p>Founded in 2001, the Terra Summer Residency brings together doctoral scholars of American art and emerging artists worldwide for a nine-week residential program in Giverny, France. The program encourages independent work while providing seminars and mentoring by senior scholars and artists to foster reflection and debate. The Terra Summer Residency provides an opportunity for participants to widen their academic and creative horizons, explore international cultural perspectives, and forge lifelong exchanges and professional networks.</p> <p>In addition to a stipend, fellows receive on-site lodging, use of working facilities, and lunches for the duration of the residency. The residency handbook provides more information about the location, facilities, and residency guidelines.</p>	<p>Applicants must be either:</p> <ul style="list-style-type: none"> •A doctoral candidate researching American art and visual culture or its role in a context of international artistic exchange prior to 1980. Candidates at the dissertation-writing stage are encouraged to apply. •A visual artist with a master's degree or its equivalent at the time of application. Preference is given to applicants who have completed their degree within the past five years. <ul style="list-style-type: none"> •Applicants must be recommended by their dissertation advisor or professor or previous art-school supervisor. Each professor may recommend a maximum of two candidates each year. (See the application form for full nomination and application procedures.) •As the program's working language of the program is English, all applicants are expected to be fluent; knowledge of French is an asset but not required. 	\$5,000 + \$300 for purchase of materials, plus travel allowance and housing	1/15/2021	

Council for European Studies	SAE-CES Pre-Dissertation Research Fellowship	The Society for the Anthropology of Europe (SAE) and the Council for European Studies (CES) invite eligible graduate students with a focus on European Anthropology to apply for the 2020-21 Anthropology of Europe Pre-Dissertation Fellowship. The SAE is the section of the American Anthropological Association that promotes the anthropological study of European societies and culture, encouraging connections between scholars working in Europe. Each fellowship includes a \$5,000 stipend to fund two months' research in Europe, and a registration fee waiver for attending and presenting at the International Conference of Europeanists.	The Anthropology of Europe Pre-Dissertation Fellowship is intended to fund fellows' first research project in Europe. Applicants must: be enrolled in a doctoral program at a university that is a member of the Council for European Studies Academic Consortium; not have completed the majority of doctoral coursework; not have begun substantial dissertation research in Europe. Barring exceptional circumstances, students who have already received comparable support for pre-dissertation research will not be considered eligible.	\$5,000	1/15/2021	
Cartography and Geographic Information Society (CaGIS)	CaGIS Doctoral Scholarship Award	Each year, the Cartography and Geographic Information Society (CaGIS) sponsors three scholarships to students whose research and accomplishments support the mission of CaGIS. The scholarships recognize academic achievement and encourage the continuing success of outstanding cartography and geographic information science students. The scholarships also recognize achievement or potential for achievement in original research advancing the specific disciplines of cartography or GIScience. Winners are selected based on academic achievement, particularly in the calendar year prior to the award. Applications are reviewed by the CaGIS Scholarship Committee, and awards are announced in March.	none	\$1,500	1/19/2019	
Cartography and Geographic Information Society (CaGIS)	CaGIS Masters Scholarship Award	Each year, the Cartography and Geographic Information Society (CaGIS) sponsors three scholarships to students whose research and accomplishments support the mission of CaGIS. The scholarships recognize academic achievement and encourage the continuing success of outstanding cartography and geographic information science students. The scholarships also recognize achievement or potential for achievement in original research advancing the specific disciplines of cartography or GIScience. Winners are selected based on academic achievement, particularly in the calendar year prior to the award. Applications are reviewed by the CaGIS Scholarship Committee, and awards are announced in March.	none	\$750	1/19/2019	
Autism Speaks	Predoctoral Fellowship Program	Autism Speaks invites applications from predoctoral students interested in pursuing careers in autism research. The fellows will work directly with mentors who are leading scientists in autism-related research. This program supports the growth of a promising cadre of early career scientists who will make autism research their chosen field. The primary purpose of the predoctoral fellowship is to provide highly qualified candidates with exceptional research training opportunities broadly related to the study of autism spectrum disorder (ASD). Areas of research Autism Speaks is most interested in funding include: <ul style="list-style-type: none"> • Pre-clinical intervention studies, including gene and RNA editing • Immunology/inflammation • Medical comorbidities (particularly seizures and GI problems/microbiome) with an emphasis on intervention studies • Adult transition and lifespan development • Challenging behavior • Cognitively disabled and/or non- or minimally verbal • * Innovative implementation of technology to enhance reach and impact of services with an emphasis on diagnosis and intervention in low resource settings, especially among ethnic minority, rural and other marginalized populations • Inclusion of individuals from low-resource communities (For research that involves human subjects, Autism Speaks will prioritize study designs that include and better reflect the diversity of the community that we serve.) 	Predoctoral Fellows: The candidate must be an enrolled student in a program leading to a research doctorate (such as a Ph.D. or Sc.D.) or a combined degree such as an M.D./Ph.D., in an academic department of an accredited university or health/medical institution. The candidate must have two or more years remaining in their program. The selected predoctoral fellow must spend at least 80% of is/her professional time engaged exclusively in their Autism Speaks' autism research-related activities for the duration of the award and cannot simultaneously hold another fellowship award during the support period. International applications are encouraged. Mentors: Prior to application, predoctoral candidates must have an identified mentor for their fellowship. Mentors must have a Ph.D. and/or an M.D. or equivalent degree and be a scientific investigator with an academic or research institutional appointment (tenured, tenure-track or equivalent position). The mentor must be affiliated with a nonprofit research institution with a research mission and administrative infrastructure. Non-academic institutions must have tax-exempt status documented under Section 501(c)3 of the Internal Revenue Code, or similar classification outside the United States. The Letter of Intent (LOI) must include a letter of commitment and the application must include a recommendation from the mentor as well as a jointly completed Individualized Development Plan. The mentor's training experience should also be documented.	\$74,000	LOI: 1/19/2021 Full application: 3/3/2021	

New York Public Library	Short Term Research Fellowship	The New York Public Library is pleased to offer Short-Term Research Fellowships to support scholars from outside the New York metropolitan area engaged in graduate-level, post-doctoral, and independent research. Individuals needing to conduct on-site research in the Library's special collections are welcome to apply. Preference is given to applications making a strong case for accessing special collections materials. Fellowship stipends are \$1,000 per week for a minimum of two and maximum of four weeks.	Eligibility: Only U.S. citizens, permanent residents and foreign nationals who have been resident in the United States for three years as of January 31, 2021, and live outside of the New York Metropolitan Area may apply.	\$4,000	1/25/2021	
National Security Education Program	Boren Fellowships	Fund research and language study proposals by U.S. graduate students in world regions critical to U.S. interests. Maximum awards are determined by duration abroad: Up to \$25,000 for 25-52 weeks (preferred) Up to \$12,500 for 12-24 weeks + Up to \$12,000 for domestic language study (optional)	US Citizen	\$30,000	1/27/2021	
American Philosophical Society (APS)	Long-Term Pre-Doctoral Fellowships	The American Philosophical Society Library in Philadelphia seeks applicants for one-year residential predoctoral fellowships to assist in the completion of doctoral dissertation research.	none	\$25,000	1/29/2021	
Center for Retirement Research at Boston College (CRR)	Dissertation Fellowship Program	The Center for Retirement Research at Boston College sponsors the annual Dissertation Fellowship Program in the field of retirement or disability research. The program is funded by the U.S. Social Security Administration and provides funding opportunities for doctoral candidates to pursue cutting-edge research on retirement or disability issues. Research focal areas include: Trends in disability; Determining disability; Requirements of work in the modern economy; Informing long-term projections and models; Improving communication and outreach; State and local pensions for non-covered workers; Modernizing totalization agreements; Economic security of SSA beneficiaries; Work-activity retention of disabled beneficiaries with overpayments; and Improving service delivery.	none	\$28,000	1/31/2021	
Oncology Nursing Society Foundation	Doctoral Scholarship	To provide scholarships to registered nurses who are interested in and committed to oncology nursing to continue their education by pursuing a research doctoral degree (PhD or DNSc) or clinical doctoral degree (DNP)	none	up to \$7,500	1/31/2021	
National Academies and National Research Council (NRC)	NRC Research Associate Programs (RAP)	In the NRC Research Associateship Programs, prospective applicants select a research project or projects from among a large group of Research Opportunities available through this website. Prior to completing an application, prospective applicants should contact the Research Adviser listed with the selected Research Opportunity(ies) to assure that funding will be available if the application is recommended by NRC Research Associateship Programs panels. Once a host laboratory and Research Adviser are identified and the applicant has contacted the proposed Research Adviser, an application is submitted through the NRC Research Associateship Programs online application system. Reviews are conducted four times each year, and review results are available to applicants six to eight weeks following the application deadline. Prospective applicants should carefully read the details and eligibility of the program to which they are applying.	NETL Methane Hydrates Fellowship Program	up to \$80,000	2/1/2021	
Smithsonian Institute	Minority Awards Program – Visiting Student	The Office of Fellowships and Internships offers visiting student awards to increase participation of U.S. minority groups who are underrepresented in Smithsonian scholarly programs, in the disciplines of research conducted at the Institution, and in the museum field. This program is designed to provide beginning graduate students the opportunity to learn more about the Smithsonian and their academic fields by conducting research using its collections with a Smithsonian research staff member serving as an advisor at the Institution's many museums, research institutes and offices.	U.S. Citizen or permanent resident	10 wks (Summer or Fall) - \$600/ week	2/1/2020 Temporarily closed due to COVID-19	

Smithsonian Institute	Native American Awards Program – Visiting Student	The Native American Awards Visiting Student falls within the Native American Awards Program which supports students, who are formally or informally affiliated with a Native American community or tribe, to visit the Institution to conduct independent research using its Native American-related resources in with the advice and guidance of Smithsonian research staff.	U.S. Citizen or permanent resident	10 wks (Summer or Fall) - \$600/ week	2/1/2020 Temporarily closed due to COVID-19	
Academy of Nutrition and Dietetics Foundation	Jean Hankin Nutritional Epidemiology Research Grant	This grant is given to provide financial support to a doctoral student working on a dissertation in the area of nutritional epidemiology.	U.S. citizen or a permanent resident	\$20,000	2/1/2021	
Association for Asian Studies	China and Inner Asia Council Small Grants	Travel and conference grants related to Chinese studies	AAS members only	\$2,000	2/1/2021	
Academy of Nutrition and Dietetics Foundation	Amy Joye Memorial Research Award		none	\$5,000	2/1/2021	
Jefferson Scholars Foundation	National Fellowship	The Jefferson Scholars Foundation encourages applicants from a broad range of disciplines, including, but not limited to, history, political science, policy studies, law, political economy, communications and media, and sociology. Applicants will be judged on the quality of their scholarship and on their potential to shed new light upon contemporary developments in American politics, foreign policy, and America and the World. Each Fellow is required to participate in two conferences, one in the fall and one in the spring. The conferences provide a forum for presenting research and findings to the scholarly community at the Jefferson Scholars Foundation and the University of Virginia. The spring conference in particular provides an opportunity to receive feedback from mentors who are also in attendance. Expenses for both conferences are paid for by the Jefferson Scholars Foundation.	An applicant must be a Ph.D. candidate who is expecting to complete his or her dissertation by the conclusion of the Fellowship year. This is not a post-doctoral fellowship. Non-U.S. citizens are eligible to apply.	travel, lodging and \$1,500 stipend	2/1/2021	
The Harry Frank Guggenheim Foundation	Dissertation Fellowships	In addition to the foundation's program of support for postdoctoral research, ten or more dissertation fellowships are awarded each year to graduate students who would complete the writing of a dissertation within the award year. These fellowships of \$20,000 each are designed to contribute to the support of the doctoral candidate to enable him or her to complete the thesis in a timely manner and are only appropriate for students approaching the final year of their Ph.D. work. This fellowship is not for support of doctoral research. Applications are evaluated in comparison with each other and not in competition with the postdoctoral research grant proposals. Applicants may be citizens of any country and studying at colleges or universities in any country. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects. Dissertations with no relevance to understanding human violence and aggression will not be supported. Priority will also be given to areas and methodologies not receiving adequate attention and support from other funding sources.	These grants are made to Ph.D. candidates who are entering the dissertation stage of graduate school. Usually, this means that fieldwork or other research is complete and writing has begun. If analysis and writing are not far enough along for an applicant to be confident that he will complete the dissertation within the year, he should not apply, as the application will not be competitive with those that comply with this timetable. In some disciplines, particularly experimental fields, research and writing can reasonably be expected to be completed within the same year, and in those cases it is appropriate to apply.	\$20,000	2/1/2021	

Association for Asian Studies	China and Inner Asia Council Small Grants	<p>The China and Inner Asia Council of the AAS (CIAC) is soliciting applications for awards of up to \$2,000. Dissertation-level graduate students and scholars with special interests in China, Taiwan, or Inner Asia are invited to submit proposals. CIAC Small Grant awards are made possible through funding provided by the Chiang Ching-kuo (CCK) Foundation and from AAS member donations.</p> <p>Types of Grants: Short research trips; Short research trips for translators; Organization of conferences and seminars; Specialist or regional newsletters or websites.</p>	<p>Applicants must be current AAS members, but there are no citizenship requirements. Dissertation-level graduate students, junior and independent scholars (including language pedagogues and librarians), and adjunct faculty are especially encouraged to apply, but scholars of all levels are eligible. Applicants must not have received a CIAC Small Grant within the past three years. Only one application per individual will be accepted in any one grant application round.</p>	\$2,000	2/1/2021	
National Institute for Health (NIH)	AHRQ Grants for Health Services Research Dissertation Program (R36)	<p>This announcement represents the continuation of an AHRQ program that provides support to individuals who are conducting research undertaken as part of an accredited academic program to qualify for a research doctorate degree.</p> <p>AHRQ welcomes any area of health services research relevant to AHRQ's priority areas as a dissertation project topic. AHRQ's priority areas of focus are:</p> <ul style="list-style-type: none"> •Research to improve health care patient safety. •Harnessing data and technology to improve health care quality and patient outcomes and to provide a 360-degree view of the patient. •Research to increase accessibility and affordability of health care by examining innovative market approaches to care delivery and financing. <p>Candidates are encouraged to address health services research issues critical to AHRQ priority populations, including: individuals living in inner city or rural (including frontier) areas; low-income and minority groups; women, children, the elderly; and individuals with special health care needs, including those with disabilities and those who need chronic or end-of-life health care</p>	<p>For dissertation grants, the applicant organization must be an accredited doctoral granting institution at which the student is registered and matriculating. Individuals cannot apply directly.</p> <p>Candidates are eligible to apply for this award provided that they:</p> <ul style="list-style-type: none"> •Are U.S. citizens, non-citizen nationals, or permanent residents by the time of the grant award; •Are full-time students (as defined by the student's institution) in good standing, who are enrolled in an accredited research doctoral program in such fields as behavioral sciences, health services research, nursing, social sciences, epidemiology, biostatistics, health policy, health informatics, engineering, economics and mathematics; •Will have completed all non-dissertation requirements for their doctoral degree by the time of submission of the application, including completion of their qualifying exams. The only exception allowed will be the completion of required clinical internships that follow completion of the dissertation; •Do not have more than part-time employment (defined as greater than twenty hours per week) in addition to the requirements of their current, full-time academic student appointment at the time the award is made; and •Are not recipients of mentored career development awards. 	\$40,000 (direct costs)	2/1/2021	
Society of Manufacturing Engineers (SME) Education Foundation	Scholarships	<p>The Foundation's scholarships offer students a powerful reason to choose a manufacturing focused education. The generosity of our many corporate partners has enabled us to provide millions in scholarships attracting thousands of new students to manufacturing every year.</p> <p>Our scholarships are awarded annually, so students can re-apply every year. Scholarships range from \$1000- \$6000 and can be used for tuition, books or lab/course fees related to attaining a technical or engineering education. Eligible students include high school seniors, undergraduates, graduate students pursuing degrees in advanced manufacturing and related fields at two- and four-year colleges.</p> <p>In addition, the SME Education Foundation annually offers substantial scholarships to students with at least one parent or grandparent who has been an SME member in good standing for the last two years. The Family Scholarships include one (1) award in an amount of \$40,000 and three (3) scholarships of \$20,000 each, all payable over four years.</p>	<p>While Graduate Students typically rely on fellowship, the SME Education Foundation is proud to award scholarships for manufacturing students looking for an advanced degree. Students enrolled in advanced manufacturing education need to dedicate time to their studies: Our scholarships help them take on the financial burden while allowing students to focus on their education.</p> <ul style="list-style-type: none"> •Must be a permanent resident or citizen of the United States or Canada. •Must have a minimum GPA of 2.5 on a 4.0 scale. •Must be on a path toward a graduate degree in manufacturing engineering, technology, or closely related field at an accredited college or university in the United States or Canada. 	\$6,000	2/1/2021	

American Psychological Foundation	Beth Rom Rymer Scholarships	<p>The Beth N. Rom-Rymer Scholarships provide support to both graduate students and practicing, licensed psychologists to complete their training in psychopharmacology programs, which adhere to the APA model curriculum of didactic training in clinical psychopharmacology.</p> <p>The purpose of the scholarships is to encourage talented psychologists, with recognized leadership skills, and with demonstrated passion for growing the field, to become prescribing psychologists, engaged in providing the highest caliber, comprehensive, integrated care to the most at-risk members of the community.</p> <p>Preference will be given to those applicants who are committed to working with the underserved.</p> <p>Approximately half of the scholarships are intended for predoctoral graduate students, and approximately half for practicing, licensed psychologists at all career levels.</p>	Applicants must be graduate students or practicing, licensed psychologists with evidence of having enrolled in a training program in clinical psychopharmacology, which adheres to the APA model curriculum of didactic training in clinical psychopharmacology.	\$5,000	2/1/2021	
PhRMA Foundation	Health Outcomes Fellowship	This award provides support to promising students (U.S. and non-U.S. citizens) during advanced stages of training and thesis research and for the career development of scientists prepared to engage in health outcomes research.	US Citizen or Permanent resident	\$50,000 over 2 years	2/1/2021	
ASTRO Targeting Cancer Care	ASTRO Minority Summer Fellowship Award	The ASTRO Minority Summer Fellowship Award introduces medical students from backgrounds that are under-represented in medicine to the discipline of radiation oncology early in their medical education.	none	\$4,500	2/5/2021	
Department of Education (DOE)	*Limited Submission* Fulbright-Hays Doctoral Dissertation Research Abroad	Foreign language, Academics	US Citizen or Permanent resident	\$60,000	2/6/2020	
Organization for Autism Research (OAR)	Graduate Student Grant Competition	Our Graduate Research Grant Competition offers grant awards of \$1,000 for students conducting autism research as a requirement in pursuit of a master's degree and \$2,000 for students who are doctoral candidates or post-doctoral students. We fund studies that will likely produce practical and clearly objective results that may aid parents, families, professionals, and people with autism to make more fully informed choices that will lead to healthier and happier lives.	none	\$2,000	2/8/2021	
American Historical Association	Bernadotte E. Schmitt Grant for Research in European, African, or Asian History	<p>to further research in progress and may be used for travel to a library or archive, for microfilms, photographs, or photocopying</p> <p>The American Historical Association offers the Bernadotte E. Schmitt Grants to support research in the history of Europe, Africa, and Asia. The funds for this program come from the earnings of a bequest from Bernadotte E. Schmitt, president of the Association in 1960. These modest annual grants are intended to further research in progress and may be used for travel to a library or archive, for microfilms, photographs, or photocopying—a list of purposes that is meant to be merely illustrative, not exhaustive (other expenses, such as child care, can be included). Individual grants up to \$1,500 will be awarded. See the list of past recipients.</p>	<p>Only members of the Association are eligible to apply for AHA research grants. Grants are awarded each June and may be used anytime in the subsequent 15 months for expenses related to furthering research in progress. Preference will be given to advanced doctoral students, non-tenured faculty, and unaffiliated scholars, and to those with specific research needs, such as the completion of a project or a discrete segment thereof.</p> <p>Please note: Within a five-year period, no individual is eligible to receive more than a combined total of \$1,500 from all AHA research grants.</p>	\$1,500	2/15/2021	
Fight for Sight	Summer Student Fellowships	<i>Fight for Sight</i> funds basic or clinical research in ophthalmology, vision or related sciences by individuals with limited or no other research funding.	Applicants should be affiliated with a North American institution for their research.	\$2,500	2/15/2021

Individual grants up to \$1,500 will be awarded.	Only members of the Association are eligible to apply for AHA research grants. Grants are awarded each June and may be used anytime in the subsequent 15 months for expenses related to furthering research in progress. Preference will be given to advanced doctoral students, non-tenured faculty, and unaffiliated scholars, and to those with specific research needs, such as the completion of a project or a discrete segment thereof.	\$1,500	2/15/2021	
Society of Women Engineers	Graduate Scholarships	The SWE Scholarship Program provides financial assistance to women admitted to accredited baccalaureate or graduate programs, in preparation for careers in engineering, engineering technology and computer science. In 2019, SWE awarded nearly 260 new and renewed scholarships valued at over \$810,000. Applicants complete one application and are considered for all scholarships for which they are eligible.	To be eligible, a candidate must: •be a woman •be studying engineering full time •need funding to cover tuition, fees, and books •have an unweighted GPA of equal to or greater than 3.0/4.0 •study at a school with ABET-accredited programs •in preparation for careers in engineering, engineering technology and computer science	Varies	2/15/2021	
American Psychological Foundation	APF Dr. Christine Blasey-Ford Grant	The Dr. Christine Blasey-Ford Grant will provide up to \$1,500 to support innovative work to support graduate students and early career researchers conducting work focusing on the understanding, prevention and/or treatment of the consequences of exposure to traumatic events such as sexual assault, sexual harassment and/or rape.	Applicants must: •Be a graduate student or early career psychologist (a doctoral level psychologist who is no more than 10 years postdoctoral). •Be affiliated with nonprofit charitable, educational and scientific institutions, or governmental entities operating exclusively for charitable and educational purposes. •Have a demonstrated knowledge of trauma and trauma research. •Have demonstrated competence and capacity to execute the proposed work. •Have IRB approval from host institution before funding can be awarded if human participants are involved.	\$1,500	2/15/2021	
American Psychological Foundation	Henry P. David Grants for Research in Human Reproductive Behavior and Population Studies	The American Psychological Foundation's Henry David Fund was established to support young psychologists with a demonstrated interest in the behavioral aspects of human reproductive behavior or an area related to population concerns. The Research Grant provides up to \$1,000 for support of ongoing research in behavioral aspects of population studies or human reproductive behavior.	•Applicants must be graduate students conducting dissertation research or early career researchers with not more than 10 years postgraduate experience. •Demonstrated interest in human reproductive behavior or related population concerns. •Open to applicants in all relevant disciplines who have a demonstrated psychological approach to their work, with preference given to psychologists.	\$1,000	2/15/2021	
NIH National Institute on Drug Abuse (NIDA)	Drug Abuse Dissertation Research (R36)	The goal of this FOA is to enhance the diversity of the drug abuse research workforce by providing dissertation awards on topics related to the study of basic and clinical neuroscience, development, epidemiology, prevention, treatment, services, or women and sex/gender differences as they relate to drug abuse.	US citizen, non-citizen US national or a permanent resident	up to \$100,000 over 2 years	2/16/2021	
U.S. Department of Education	Fulbright-Hays--Doctoral Dissertation Research Abroad	The Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) Fellowship Program provides opportunities to doctoral candidates to engage in full-time dissertation research abroad in modern foreign languages and area studies. The program is designed to contribute to the development and improvement of the study of modern foreign languages and area studies in the United States. The institutional project period is 18 months. Students may request funding for a period of no less than six months and no more than 12 months. Funds support travel expenses to and from the residence of the fellow and the country or countries of research; maintenance and dependents(s) allowances based on the location of research for the fellow and his or her dependent(s); an allowance for research-related expenses overseas; and health and accident insurance premiums.	Institutions of higher education (IHEs) in the United States are eligible to apply for grants under this program. As part of the application process, students submit individual applications to the IHE. The IHE then submits all eligible individual student applications with its grant application to the U.S. Department of Education. A student is eligible to receive a fellowship if he or she: • Is a citizen, national, or permanent resident of the United States • Is a graduate student in good standing at an IHE • Is admitted to candidacy in a doctoral degree program in modern foreign languages and area studies at that institution when the fellowship period begins • Is planning a teaching career in the United States upon completion of his or her doctoral program • Possesses sufficient foreign language skills to carry out the dissertation research project	Average Fellowship Award: \$33,461	2/18/2020

Society for Neuroscience	Neuroscience Scholars Program	The Neuroscience Scholars Program (NSP) is a two-year training program open to underrepresented graduate students and postdoctoral researchers. Building on a 30 year history, NSP provides resources focused on career advancement issues, the research process, and cutting-edge scientific content. NSP participants have access to: Live events and webinars, Educational resources, An online group for those seeking career connections and Guidance from mentors and NSP Alumni	U.S. Citizenship or permanent residency required and underrepresented minority		2/18/2021	
Universities Research Association	URA Visiting Scholars Program (VSP)	Research in high energy physics experiments, astrophysics, theory, accelerator physics, materials science, computer science, engineering, and accelerator R&D related to the Fermilab mission.	Applicants must be enrolled at URA member institutions during the course of the award.	\$50,000	2/22/2021	August & February
Association of Public Health Laboratories (APHL)	APHL-CDC Bioinformatics Fellowship Program	The APHL-CDC Bioinformatics Fellowship aims to train and prepare bioinformaticians to apply their expertise within public health and design tools to aid existing public health personnel in the use of bioinformatics. The Bioinformatics Fellowships provide post-master's and post-doctoral level professionals the opportunity to apply their skills to a range of important and emerging public health problems, while gaining experience in their fields. Whether your specialty is metagenomics, algorithm/software development, microbial genomics or another research area, we have a place for you!	Applicants must have complete a master's or doctoral degree in bioinformatics or a related discipline by the start date of their fellowship. Fellows should plan on starting July 1, but some flexibility in start dates may be considered to allow for degree completion. Applicants are required to have demonstrated education and/or experience in bioinformatics.	\$54,095	2/28/2021	
Army Heritage Center Foundation	Robert L. and Robert C. Ruth Fellowship	The Army Heritage Center Foundation is pleased to announce the LTC John William Whitman Research Grant. This grant of up to \$1,750 is designed to provide monetary support to unfunded independent researchers who are working on under-explored topics of military history. Funded research is to be conducted at the U.S. Army Heritage and Education Center (USAHEC) in Carlisle, Pa.	none	\$1,500	3/1/2019	

International OCD Foundation	Michael Jenike Young Investigator Awards	<p>These are grants of up to \$50,000 each, disbursed over the course of one year in quarterly installments. They support promising young investigators who are developing their careers while pursuing creative and impactful research projects on OCD and related disorders across a range of disciplines. To be eligible for funding, researchers must be investigating OCD and related disorders (OCD, including pediatric OCD; PANS/PANDAS; hoarding disorder; body dysmorphic disorder; or body focused repetitive behaviors).</p> <p>Jenike Awards – Race, Ethnicity, and Culture Category Through the generous partnership of our affiliate OCD Jacksonville, the IOCDF has established a dedicated fund to support research on the role that race, ethnicity, and culture play in OCD and related disorders, including how they influence symptoms, diagnosis, treatment, and treatment access. All Jenike Award applicants who propose projects in these research areas are eligible. Awards made in this category will be part of the Jenike Award program and subject to the same terms, eligibility, and application requirements. Applications of up to \$50,000 are welcome, including applications for smaller projects requiring significantly less funding support.</p>	Eligible applicants must be current graduate students, or must have completed their residency or their PhD (or equivalent) on or after September 1, 2016. Applicants who are still in training must submit a letter from their mentor with their application. Only research projects that investigate topics in the field of OCD and related disorders (OCD, including pediatric OCD; PANS/PANDAS; hoarding disorder; body dysmorphic disorder) will be considered for funding.	\$50,000	3/1/2021	
American Psychological Foundation	Wayne F. Placek Grants	<p>The Wayne F. Placek Grant encourages research to increase the general public's understanding of homosexuality and sexual orientation, and to alleviate the stress that lesbian women, gay men, bisexual women, bisexual men and transgender individuals experience in this and future civilizations. Since 1995, the Placek Fund has granted more than \$1 million.</p> <p>The Wayne F. Placek Grant encourages research that addresses the following topics:</p> <p>Heterosexuals' attitudes and behaviors toward lesbian, gay, bisexual and transgender (LGBT) people, including prejudice, discrimination and violence. Family and workplace issues relevant to LGBT people. Special concerns of sectors of the LGBT population that have historically been underrepresented in scientific research.</p>	Must be either a doctoral-level researcher or graduate student affiliated with an educational institution of a 501(c)(3) nonprofit research organization. Graduate students and early career researchers are encouraged to apply.	\$9,000	3/1/2021	
Society for the Psychological Study of Social Issues	Dalmas A. Taylor Memorial Summer Minority Policy Fellowship	<p>The purpose of this fellowship is to honor the memory of Dalmas A. Taylor, who passed away during his term as President of SPSSI. Dr. Taylor had been involved for many years with SPSSI. In addition, he was instrumental in establishing the Minority Fellowship at the American Psychological Association and in increasing the APA's attention to inclusion of people of color.</p> <p>This fellowship is administered in conjunction with APA and the APA Minority Fellowship Program. It provides an opportunity for a graduate student of color to work on public policy issues in Washington, DC. The fellowship also includes participation at the SPSSI Conference, which is held in late June.</p> <p>NOTE: Please note that for the summer of 2021, the fellowship will be virtual, with the option to convert the fellowship to an in-person experience if conditions allow.</p>	Applicants must be currently enrolled and in good standing in an accredited graduate program in psychology or a related field. In addition, they must be members of an ethnic minority group (including, but not limited to, African American, Alaskan Native, American Indian, Asian American, Latinx, and Pacific Islander) and/or have demonstrated a commitment to a career with a focus on ethnic minority issues. Applicants should not have completed their graduate program by the time they begin the fellowship.	\$3,000	3/15/2021	
American Australian Association	EDU Australia to United States Scholarships	Biophotonics, Engineering, Environmental and Marine Sciences, Mathematics, Medicine, Sciences, Sustainability and Technology	Australian citizen or permanent resident of Australia	\$40,000	3/15/2021	

Fahs-Beck Fund for Research and Experimentation	Doctoral Dissertation Grant Program (Fahs-Beck Scholars)	Grants of up to \$5,000 are available to help support dissertation expenses of doctoral students in the United States and Canada whose studies have the potential for adding significantly to knowledge about problems in the functioning or well being of children, adults, couples, families, or communities, or about interventions designed to prevent or alleviate such problems. The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.	Applicants must be enrolled in an accredited doctoral program in the United States or Canada.	\$5,000	4/1/2021	April and November
University of Minnesota	Program for Cultural Cooperation Between Spain's Ministry of Culture & United States' Universities	<p>The program is designed to promote closer ties between scholarly Hispanicism in the US in the areas of humanities, social sciences and the cultural and academic developments of Spain. Projects oriented toward the dissemination of Spanish culture throughout the academic systems of the US are reviewed for subsidy. Priority is given to those proposals of high scholarly quality which will have an important impact upon the field of Hispanicism, both regionally and nationwide.</p> <p>Since its conception, the program has granted a considerable amount of subsidies supporting a variety of events. Proposals encompass visiting professorships; the publication of scholarly journals, translations, and literary texts; symposia, film series, and exhibitions; and dissertation scholarships. More than 300 US academic institutions have benefited from these subsidies. Applications submitted by scholars in the US who wish to undertake or complete research projects in Spain are considered. These academic investigations are evaluated on the basis of scholarly quality as well as relevance to the dissemination of Spanish culture in the US. The program only covers up to 50% of the cost. If you have no matching institutional funds, indicate that you will be covering the other 50% out of your own funds. Salaries are not subsidized, so do not list sabbatical salary as a matching fund.</p> <p>The program covers 50% of the cost. If you have no matching institutional funds, indicate that you will be covering the other 50% out of your own funds.</p>		There is a maximum three month stay at the rate of approximately \$3,000 per month that the program will cover.	4/1/2020	
German Historical Institute	Doctoral and Postdoctoral Fellowships	<p>The GHI awards short-term fellowships to European and North American doctoral students as well as postdoctoral scholars to pursue research projects that draw upon primary sources located in the United States.</p> <p>We are particularly interested in research projects that fit into the following fields:</p> <ul style="list-style-type: none"> •German and European history •The history of German-American relations •The role of Germany and the USA in international relations •American history (European doctoral and postdoctoral scholars only) <p>The proposed research projects should make use of historical methods and engage with the relevant historiography. We especially invite applications from doctoral and postdoctoral scholars who currently have no funding from their home institutions. The fellowships are usually granted for periods of one to five months but, in exceptional cases and depending on the availability of funds, they can be extended by one month.</p> <p>The GHI will not provide funding for preliminary research, manuscript composition, or the revision of manuscripts. It will give clear priority to those postdoc projects that are designed for the "second book." The fellowship is open to both doctoral and postdoctoral scholars based in North America and Europe. The monthly stipend is € 2,000 for doctoral students and € 3,400 for postdoctoral scholars. In addition, fellowship recipients based in Europe will receive reimbursement for their round-trip airfare to the U.S.</p>	<ul style="list-style-type: none"> •Applicants should be based at (or recent graduates of) a North American or European university or research institute. •For doctoral students applying, ABD status is required before starting the fellowship. •For postdoctoral scholars applying, the preference is for projects that are designed for the "second book" (Habilitation or equivalent). •The proposed project should require primary research in the United States. 	monthly stipend of €2,000 (approx. \$2,400)	4/1/2021	

American Psychological Foundation (APF)	Visionary Grants	The APF Visionary Grants seek to seed innovation through supporting research, education and intervention projects and programs that use psychology to solve social problems in the following priority areas: Applying psychology to at-risk, vulnerable populations (e.g. serious mental illness, returning military, those who are incarcerated or economically disadvantaged); Preventing violence; Understanding the connection between behavior and health (e.g. wellness, diabetes, obesity); Understanding and eliminating stigma and prejudice (e.g. race, gender, sexual orientation, religion, age, disability and socioeconomic status).	Be a graduate student or early career researcher (no more than 10 years postdoctoral). Be affiliated with a nonprofit charitable, educational or scientific institution, or governmental entity operating exclusively for charitable and educational purposes. Have demonstrated competence and capacity to execute the proposed work.	\$20,000	4/1/2021	April 1
American Heart Association (AHA)	Student Scholarships in Cardiovascular Disease	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project. The scholarship stipends may be used for student expenses, lab fees, or other costs incurred by the student during the project. \$2,000 scholarships, paid to the institution of the selected student, will be available for students researching cardiovascular disease topics within basic, clinical, translational or population sciences.	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project.	\$2,000	4/2/2021	
American Heart Association (AHA)	Student Scholarships in Cerebrovascular Disease and Stroke	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project. The scholarship stipends may be used for student expenses, lab fees, or other costs incurred by the student during the project. \$2,000 scholarships, paid to the institution of the selected student, will be available for students specifically researching cerebrovascular disease and stroke. Scholarship recipients may also be eligible to receive a \$750 travel grant pending verification of their attendance at the International Stroke Conference (ISC) and an accepted, a co-authored abstract for the current year's conference.	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project.	\$2,000	4/2/2021	
American Heart Association (AHA)	Student Scholarship in Cardiovascular Surgery	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project. The scholarship stipends may be used for student expenses, lab fees, or other costs incurred by the student during the project. \$2,000 scholarships, paid to the institution of the selected student, will be available for students specifically researching cardiac surgery, vascular surgery, or cardiovascular anesthesia. Scholarship recipients may also be eligible to receive a \$750 travel grant pending verification of their attendance at Scientific Sessions in November. If attending Scientific Sessions, they will be invited to attend the CVSA leadership meeting to report their experience. Awardees will also receive a complimentary ticket to the CVSA Annual Business Meeting (Council Dinner) and a 1-year complimentary AHA Student/Trainee member account.	AHA scholarships provide valuable stipends for graduate-level or medical students during the research project.	\$2,000	4/2/2021	
Link Foundation	Ocean Engineering & Instrumentation PH.D. Fellowship Program	The main goals of the Link Foundation Ocean Engineering and Instrumentation Ph.D. Fellowship are: •To foster ocean engineering and ocean instrumentation research •To enhance both the theoretical and practical knowledge and applications of ocean engineering and ocean instrumentation research, and •To disseminate the results of that research through lectures, seminars and publications.	Students working towards a PhD	\$30,000	4/5/2021	

The Social Science Research Council	Religion, Spirituality, and Democratic Renewal (RSDR) Fellowship	To bring knowledge of the place of religion and spirituality into scholarly and public conversations about renewing democracy in the United States. We welcome proposals on religion and spirituality in its relation to democracy from across all fields in the social sciences, humanities, and theology. Research projects using any social science methodology, quantitative, qualitative, or mixed, are eligible, and we encourage applications that are grounded in novel theories and analytic frameworks.	Doctoral students who have advanced to candidacy and to postdoctoral researchers within five years of their PhD	\$15,000	4/6/2021	
National Institute for Health (NIH)	Mental Health Research Dissertation Grant to Enhance Workforce Diversity (R36 Independent Clinical Trial Not Allowed)	The purpose of this Funding Opportunity Announcement (FOA) is to enhance the diversity of the mental health research workforce by providing dissertation awards in all research areas within the strategic priorities of the NIMH to individuals from groups underrepresented in biomedical, behavioral, clinical and social sciences research. This award supports the completion of the doctoral research project.	Eligible PDs/PIs include predoctoral students at the dissertation stage of training. The applicant must have an approved dissertation proposal (at the time of award), show evidence of high academic performance in the field of study and a commitment to a career as an independent research scientist, an independent physician-scientist or other clinician-scientist (dual-degree training). This FOA is available to predoctoral students from groups underrepresented in biomedical research who are in good standing in accredited research doctoral programs in the United States. The PD/PI must have a baccalaureate degree and be currently enrolled in a PhD or equivalent research degree program (e.g., EngD, DNSc, DrPH, DSW, PharmD, PsyD, ScD), a formally combined MD/PhD program, or other combined professional/clinical and research doctoral (e.g., DDS/PhD) in the biomedical, behavioral, or clinical sciences. A. Individuals from racial and ethnic groups that have been shown by the NSF to be underrepresented in health-related sciences on a national basis, and the report Women, Minorities, and Persons with Disabilities in Science and Engineering. B. Individuals with disabilities, who are defined as those with a physical or mental impairment that substantially limits one or more major life activities, as described in the Americans with Disabilities Act of 1990, as amended. By the time of the award, the individual must be a citizen or a non-citizen national of the United States or have been lawfully admitted for permanent residence (i.e., possess a valid Permanent Resident Card or other legal verification of such status).	stipend (NRSA predoctoral level) plus \$15,000	4/6/2021	
National Institute for Health (NIH)	Ruth L. Kirschstein National Research Service Awards for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (Parent F31 - Diversity)	Biomedical, behavioral, or clinical sciences; The overall goal of the NIH Ruth L. Kirschstein National Research Service Award (NRSA) program is to help ensure that a diverse pool of highly trained scientists is available in appropriate scientific disciplines to address the Nation's biomedical, behavioral, and clinical research needs. NRSA fellowships support the training of pre-and postdoctoral scientists, dual-degree investigators, and senior researchers.	US Citizen, National or Permanent resident	Tuition and fees plus stipend	4/8/2021	April, August, and December
Achievement Rewards for College Scientists Foundation (ARCS) - Metropolitan Washington Chapter	ARCS Chapter Scholars	The Metropolitan Washington Chapter of the Achievement Rewards for College Scientists Foundation (ARCS/MWC) has announced that it will award Johns Hopkins University two (2) Chapter Scholar Awards for graduate students in the 2021-2022 academic year. Each ARCS/MWC Chapter Scholar Award will provide funding in the amount of \$15,000 to be used for tuition, books, fees, and other academic needs. Funds will be allocated by the university to the scholars, will be administered separately from other financial aid, and must be used within the designated academic year. ARCS/MWC Chapter Scholar Awards are intended for students whose work could lead to breakthrough technologies or new discoveries, with the fundamental goal of advancing our country's global competitiveness in science, technology, engineering, and medical research for which the ARCS Foundation was founded.	<ul style="list-style-type: none"> JHU Faculty from current Johns Hopkins ARCS/MWC Approved Schools and Departments may nominate ONE top graduate student for this opportunity. (Find department list at competition link below.) Nominees must be U.S. citizens, maintain a GPA of 3.5 or higher, and be enrolled in a full-time doctoral program within the approved schools and departments list. 	\$15,000	Limited Submission Internal Deadline: 4/12/2021	

National Endowment for the Humanities	Fellowships	Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Period of performance: 6 to 12 months. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.	Citizenship. U.S. citizens, whether they reside inside or outside the United States, are eligible to apply. Foreign nationals who have been living in the United States or its jurisdictions for at least the three years prior to the application deadline are also eligible. Foreign nationals who take up permanent residence outside the United States any time between the application deadline and the end of the period of performance will forfeit their eligibility to hold an award. (Leaving the U.S. on a temporary basis is permitted.) Currently enrolled students. While applicants need not have advanced degrees, individuals currently enrolled in a degreegranting program are ineligible to apply. Applicants who have satisfied all the requirements for a degree and are awaiting its conferral are eligible for NEH Fellowships; but such applicants must include a letter from the dean of the conferring school or their department chair attesting to the applicant's status as of the application deadline in Attachment 6: Degree Conferral.	\$60,000	4/14/2021	
Academy of Nutrition and Dietetics Foundation	Graduate Dietetic Scholarships	Food, Nutrition	U.S. citizen or a permanent resident. Planned or current enrollment in an advanced degree program in a US regionally accredited college or university. Students who are already enrolled in an ACEND-accredited dietetic internship (DI) and will be completing a graduate program in 2020-2021 should apply for a graduate scholarship. If your application is pending for a program, such as a dietetic internship, you will not qualify for a scholarship until you receive confirmation of acceptance.	\$10,000	4/19/2021	April
International Foundation for Ethical Research	Graduate Student Fellowships for Alternatives to the Use of Animals in Science	Fellowships are awarded to those candidates enrolled in Master's and Ph.D. programs in the sciences whose proposals show the greatest potential to reduce, refine or replace the use of animals in research, testing, and/or education.	Candidates enrolled in Master's and Ph.D. programs in the sciences	\$12,500	4/30/2021	April
Kappa Delta Pi International Honor Society in Education	Kappa Delta Pi International Scholarship Program	Education; Awards must be used to advance the recipients' studies and/or teaching career. Tuition/student loans, curriculum books, technology, classroom manipulatives, and items to establish your first classroom are acceptable. Award funds are given in the form of a check made payable to the recipient and will be mailed in July. A final report is required to outline the use and impact of award funds.	Must be a member of Kappa Delta Pi	\$750 - \$3,000	4/30/2021	May
Department of Energy (DOE) Office of Science	Office of Science Graduate Student Research (SCGSR) Program	Provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory/facility in collaboration with a DOE laboratory scientist within a defined award period in areas that address scientific challenges such as: Advanced Scientific Computing Research (ASCR), Basic Energy Sciences (BES), Biological and Environmental Research (BER), Fusion Energy Sciences (FES), High Energy Physics (HEP), and Nuclear Physics (NP)	U.S. citizen or permanent resident; Graduate students currently pursuing Ph.D. degrees in areas of physics, chemistry, material sciences, biology (non-medical), mathematics, engineering, computer or computational sciences, or specific areas of environmental sciences that are aligned with the mission of the Office of Science	\$3,000 monthly stipend + \$2,000 travel	5/5/2021	May
American Speech-Language-Hearing Foundation (ASHFoundation)	New Century Scholars Doctoral Scholarship	Communication sciences and disorders; This program is designed to support strong doctoral candidates who will pursue a teacher-investigator career in an academic environment at the university/college level.	Must be either a NSSLHA member or an ASHA member. Students must be accepted to, or currently enrolled in, a research doctoral program (PhD or equivalent) in communication sciences and disorders. Clinical doctoral students are not eligible to apply for this program; however, clinical doctoral students are eligible for other ASHFoundation funding programs. Students completing their doctoral program prior to May 2022 are not eligible for this November 2021 funding cycle.	\$10,000	5/12/2021	May
American Psychological Foundation (APF)	Violet and Cyril Franks Scholarship	The APF Violet and Cyril Franks Scholarship supports graduate-level scholarly projects that use a psychological perspective to help understand and reduce stigma associated with mental illness. The scholarship helps address research which shows that stigma is a significant barrier to treatment and recovery for many of the 50 million Americans living with mental illness.	Grad student in good standing. Demonstrated commitment to stigma issues. IRB approval must be received from host institution before funding can be awarded if human participants are involved.	\$1,000	5/15/2021	May

Open Society Foundations	Civil Society Leadership Awards	The Scholarship Programs' Civil Society Leadership Awards provide fully-funded scholarships for master's degree study to individuals who clearly demonstrate a deep commitment to leading positive social change in their communities. Awards are available for study in the following areas: Communications, Journalism & Media, Culture, History & Society, Development Studies, Economics, Education Management & Leadership, Environment & Natural Resource Management, Gender Studies, Human Rights, Law (including Human Rights law), Politics & International Studies, Public Health Policy & Health Management, Public Administration, Public Policy, Social Policy, Social Work	International Students: Afghanistan, Azerbaijan, Belarus, Cambodia, Democratic Republic of Congo, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Laos, Libya, Myanmar/Burma, Republic of Congo, South Sudan, Sudan, Syria, Tajikistan, Turkmenistan, Uzbekistan	Fully-funded scholarships for master's degree study at host institution	Spring 2021 (award not offered this cycle)	
American Speech-Language-Hearing Foundation (ASHFoundation)	Graduate Student Scholarship	Communication sciences and disorders	The applicant must be accepted for, or enrolled in, graduate study in a communication sciences and disorders program in the United States. Clinical doctoral programs in audiology or master's programs in speech-language pathology must be accredited by, or in candidacy status from, the Council on Academic Accreditation in Audiology and Speech-Language Pathology; this does not apply to research doctoral programs. The applicant must not have received a prior scholarship from the ASHFoundation.	\$5,000	5/19/2021	May
National League for Nursing (NLN)	NLN Foundation for Nursing Education Scholarship Awards	Diversity, Education; The NLN Foundation for Nursing Education offers scholarships of up to \$8,000 each year to support the NLN's mission to build a strong and diverse nursing workforce to advance the health of the nation and the global community. These scholarships are awarded to nurses pursuing advanced degrees to advance their career as a full-time nurse educator.	Master's or doctoral students enrolled in accredited programs who have completed at least a year of their academic program.	up to \$8,000	5/21/2021	May
Prevent Cancer Foundation	Fellowships	An eligible proposal must demonstrate substantial potential for impact on prevention/early detection of cancer. Eligible proposals must be original and clearly describe pre-clinical, translational, clinical or population-based research projects in the field of cancer prevention or early detection: <ul style="list-style-type: none"> • If successful, research projects reduce the frequency of epithelial neoplasms: e.g., brain, head and neck, lung, breast, prostate, uterus, ovary, esophagus, stomach, colon, pancreas, liver, skin (including melanoma), HPV-related cancers or hematologic malignancies. • Primary prevention: reverse or inhibit the carcinogenic process through modifications to diet, tobacco use, physical activity or alcohol use or to environment including ultraviolet or occupational exposure. (Examples of methodology: behavioral, including the use of social media or texting, or pharmacologic (chemopreventive) or immunologic approaches.) • Secondary prevention: screening and early detection. (Examples of methodology: immunologic, molecular, genetic or imaging (including endoscopic) techniques. Approaches using innovative technologies, including social media, health trackers or artificial intelligence, to study topics such as how to overcome barriers to screening or to reduce disparities in screening.) 	Fellowship awards are limited to postdoctoral level applicants ONLY. Therefore, only graduate students who will have their doctoral degrees before the project start date are eligible to apply.	\$100,000	Cycle will open in May 2021	
American Psychological Foundation	F. J. McGuigan Dissertation Award	APF is seeking applications for the F. J. McGuigan Dissertation Award, which supports dissertation research that addresses any aspect of mental function (e.g., cognition, affect, motivation) and seeks to understand the mind from both a behavioral and neural perspective. Proposed research should be compatible with McGuigan's overall goals and may fall within any area of contemporary behavioral or brain science (including more recent forms of cognitive psychology).	<ul style="list-style-type: none"> •Completed doctoral candidacy, including dissertation approval by doctoral committee. •Demonstrated commitment to stated program goals (dualistic approaches characteristic of much contemporary cognitive research are specifically ineligible). 	\$2,000	6/1/2021	

American Psychological Foundation	Benton-Meier Scholarships	APF supports one annual \$2,000 scholarship that is available for a graduate student in neuropsychology.	Candidates must have: <ul style="list-style-type: none"> •Completed doctoral candidacy. •Demonstrated research competence and area commitment. IRB approval must be received from host institution before funding can be awarded if human participants are involved.	\$2,000	6/1/2021	
Fight for Sight	PhD Studentships	<p>Home Apply for funding Researcher information PhD Students... PhD Studentships</p> <p>Fight for Sight's mission is to stop sight loss by funding the highest quality medical research. To help us achieve our goals we are committed to encouraging new and highly motivated graduates to take up and pursue a career in ophthalmic and vision research.</p> <p>Fight for Sight PhD Studentships are highly prestigious awards made on a fully competitive and peer reviewed basis. Up to £100,000 is offered to applicants proposing research projects which are hypothesis driven, innovative, involve high quality scientific methodologies and are supported by robust preliminary data. Applications are assessed according to the hypothesis, scientific merit of the research project and any supporting evidence. For more details of the assessment please visit our grant making process.</p> <p>Applications are now invited for PhD Studentships to undertake research that aims to address sight loss caused by any eye disease or condition. Applications are particularly encouraged in the areas of our Strategic Programmes: Age-related macular degeneration; Glaucoma; Inherited eye diseases; Sight loss linked to other diseases (Multi-morbidities); Fight for Sight/Nystagmus Network PhD Studentship; Fight for Sight/Versus Arthritis PhD Studentship; Masonic Charitable Foundation and Fight for Sight PhD Studentship Prize</p>	<p>Applications must be made by the potential PhD Supervisor(s)</p> <p>Please note that Fight for Sight will only accept one PhD Studentship application from the same individual acting either as Supervisor or Co-Supervisor</p> <p>Supervisors must be affiliated with UK academic or medical institutions</p> <p>The Student must be attached to a UK institution but the research can be undertaken in the UK and/or overseas</p> <p>Supervisor(s) must have a contract which extends beyond the termination date of the PhD Studentship</p> <p>The Student appointed must not be medically or otherwise clinically qualified professionals. Clinically active individuals should consider the MRC / Fight for Sight Clinical Research Training Fellowships</p> <p>The scheme does not cover funding gaps for studentships already started</p> <p>The proposed project must aim to stop or reduce sight loss</p>	approximately \$125,000	6/11/2020	
James S. McDonnell Foundation	21st Century Postdoctoral Fellowship Awards	The Understanding Dynamic and Multi-scale Systems program supports scholarship and research directed toward the discovery and refinement of theoretical and mathematical tools contributing to the continued development of the study of complex, adaptive, nonlinear systems. The program's emphasis is on the development and application of the theory and tools used in the study of complex research questions and not on particular fields of research per se. JSMF is also interested in projects attempting to apply complex systems approaches to coherently articulated questions where such approaches are not yet standard but could open up new paths to progress.	Final stages of completing their Ph.D. and looking to make a significant change in direction for their first postdoctoral fellowship. Students should anticipate completing their degree requirements and activating the Fellowship between May 2022 and April 2023.	\$200,000 over 2 years	6/11/2021	June
American Psychological Foundation	Kenneth B. and Mamie P. Clark Fund	The Kenneth B. and Mamie P. Clark Fund supports research and demonstration activities that promote the understanding of the relationship between self-identity and academic achievement with an emphasis on children in grade levels K-8.	Must be a graduate student	\$8,000	6/15/2021	June
NIH National Institute on Drug Abuse (NIDA)	Drug Abuse Dissertation Research (R36) PA-16-443	The goal of this program is to enhance the diversity of the drug abuse research workforce by providing dissertation awards on topics related to the study of basic and clinical neuroscience, development, epidemiology, prevention, treatment, services, or women and sex/gender differences as they relate to drug abuse.	Predocctoral students at the dissertation stage	\$50,000 (direct costs)/yr for 2 years	6/16/2021	February, June, October

American Psychological Foundation	Graduate Student Scholarships	APF awards 21 annual scholarships for graduate student research. The major criteria are related to the research proposal. Proposals will be rated on the description of the context for the research (a brief literature review), the clarity and comprehensibility of the research question, the appropriateness of the research design, the general importance (theoretical, applied) of the research and the use of requested funds (with preference given for funds to actually conduct the research as opposed to tuition, travel, books and journals). Secondary criteria are related to the student's background, including previous publications or presentations at conferences, awards won at the student's institution, the letter of recommendations from the major advisor, breadth of courses taken and grades in courses.	Graduate students enrolled in an interim master's program or doctoral program are eligible to apply. If a student is currently enrolled in a terminal master's program, the student must intend to enroll in a PhD program. Students at any stage of graduate study are encouraged to apply. The purpose of the scholarship program is to assist graduate students of psychology with research costs associated with the master's thesis or doctoral dissertation. The American Psychological Association Science Directorate administers the granting of the scholarships. Each graduate department of psychology that is a member of COGDOP may submit nominations. The number of candidates that each member department is allowed to nominate depends upon the total number of students enrolled in the graduate program. Departments that have 100 or fewer students enrolled in their graduate programs may nominate one (1) candidate; departments that have 101-200 graduate students enrolled may nominate up to two (2) candidates; and departments that have more than 200 graduate students enrolled may nominate up to three (3) candidates. NOTE: nominees must be currently enrolled in the graduate program at the time grants are awarded. APF encourages applications from individuals who represent diversity in race, ethnicity, gender, age, disability and sexual orientation.	\$5,000	6/30/2021	
STAT	STAT Wunderkinds	We set out to celebrate the unheralded heroes of science and medicine. All are blazing new trails as they attempt to answer some of the biggest questions in science and medicine. Help STAT recognize the groundbreaking work of early career scientists, Post-docs, medical residents, and other young scientists are the future of biomedicine. With STAT Wunderkinds, we aim to find and celebrate the most brilliant and innovative young minds in the life sciences. Wunderkinds will be featured on our website and invited to the STAT Summit in Boston, MA on Nov. 17-18, 2020. A select few will also be asked to participate in the STAT Summit programming on stage.	Postdoctoral fellows, medical residents, interns, medical fellows, and industry scientists who have completed their terminal degree (Ph.D., M.D., D.O., Sci.D., D.D.S., or the equivalent) and are in their first job/training program after, somewhere in North America. A person who started 2019 as a graduate student must have started their postdoc or next step by April 1, 2020.		7/31/2020	
National Academies and National Research Council (NRC)	NETL Methane Hydrates Fellowship Program	The Research Fellowship Program is designed to support the development of Methane Hydrate science and enable highly qualified graduate and postgraduate students to pursue advanced degrees and training in an area of increasing national interest.	M.S., Ph.D., and Postdoctoral applicants; U.S. Citizen	\$35,000 stipend, up to \$20,000 supplies, \$6,000 travel	8/1/2020	February, August
National Academies and National Research Council (NRC)	NRC Research Associate Programs (RAP)	The NRC Research Associateship Programs (RAP) promote excellence in scientific and technological research conducted by the U.S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions.	See Individual Agency restrictions	\$30,000 and above	8/1/2020	February, May, August, November
National Institute for Health (NIH)	Ruth L. Kirschstein National Research Service Awards for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (Parent F31 - Diversity)	To enhance the diversity of the health-related research workforce by supporting the research training of predoctoral students from diverse backgrounds including those from groups that are underrepresented in the biomedical, behavioral, or clinical research workforce.	US Citizen, National or Permanent resident. Must be currently enrolled in a PhD or equivalent research degree program (e.g., EngD, DNSc, DrPH, DSW, PharmD, PsyD, ScD), a formally combined MD/PhD program, or other combined professional/clinical and research doctoral (e.g., DDS/PhD) in the biomedical, behavioral, or clinical sciences at a domestic institution. At the time of award activation, the candidate must have completed initial coursework and be at the stage of the program where he/she can devote full-time effort to research or activities related to the development into an independent researcher or a related career aimed at improving global cardiovascular health.	Tuition and fees plus stipend	8/8/2020	April, August, and December
Universities Research Association	URA Visiting Scholars Program (VSP)	Research in high energy physics experiments, astrophysics, theory, accelerator physics, materials science, computer science, engineering, and accelerator R&D related to the Fermilab mission.	Applicants must be enrolled at URA member institutions during the course of the award.	\$50,000	8/31/2020	August & February

Schlumberger Foundation	Faculty for the Future	<p>The Faculty for the Future program, launched in 2004, awards fellowships to women from developing and emerging economies to pursue PhD or Post-doctoral research in science, technology, engineering and mathematics (STEM) at leading universities worldwide.</p> <p>The program's long-term goal is to generate conditions that result in more women pursuing scientific careers by lowering the barriers women face when entering STEM disciplines, thus reducing the gender gap. Faculty for the Future Fellows are expected to return to their home countries after completion of their studies to contribute to economic, social and technological advancement by strengthening the STEM teaching and research faculties of their home institutions. They can also make contributions in the public sector where their newly acquired technical and scientific skills can help provide evidence-based support for STEM policy making. In so doing, they become powerful role models and help to inspire other girls and women to pursue scientific careers.</p> <p>Faculty for the Future grants are based on actual costs for eligible expenses up to a maximum of USD 50,000 per year for a PhD and maximum of USD 40,000 per year for a Post-doc and may be renewed through to completion of studies.</p>	<p>Candidates should have applied to, have been admitted to, or be currently enrolled in a university abroad when submitting their grant application. Candidates must hold an excellent academic record and illustrate their commitment to teaching and research or to using their scientific knowledge in public policy advocacy. Candidates should demonstrate leadership skills, community outreach interest and have a track record in encouraging young women into STEM fields. Candidates should also prove their commitment to returning to their home countries to contribute to the economic, social and technological advancement of their regions, pursuing careers in the teaching and research faculties of their home institutions and also taking on positions in the public sector.</p>	\$300,000	9/7/2019	
American Heart Association (AHA)	Predoctoral Fellowship	<p>To enhance the integrated research and clinical training of promising students who are matriculated in pre-doctoral or clinical health professional degree training programs and who intend careers as scientists, physician-scientists or other clinician-scientists, or related careers aimed at improving global cardiovascular health.</p>	<p>At the time of application, the applicant must be: enrolled in a post-baccalaureate Ph.D., M.D., D.O., D.V.M., Pharm.D., D.D.S., DrPH, or Ph.D. in nursing or equivalent clinical health science doctoral degree program, who seeks research training with a sponsor prior to embarking upon a research career; and a full-time student working towards his/her degree.</p>	\$63,040	9/10/2020	
American Psychological Foundation	The Drs. Rosalee G. and Raymond A. Weiss Research and Program Innovation Grants	<p>The APF Drs. Rosalee G. and Raymond A. Weiss Research and Program Innovation Grants seek to seed innovation through supporting research, education and intervention projects and programs that use psychology to solve social problems in the following priority areas:</p> <ul style="list-style-type: none"> •Applying psychology to at-risk, vulnerable populations (e.g. serious mental illness, returning military, those who are incarcerated or economically disadvantaged) •Preventing violence •Understanding the connection between behavior and health (e.g. wellness, diabetes, obesity) •Understanding and eliminating stigma and prejudice (e.g. race, gender, sexual orientation, religion, age, disability and socioeconomic status) 	<p>Applicants must:</p> <ul style="list-style-type: none"> •Be a graduate student or early career researcher (no more than 10 years postdoctoral). •Be affiliated with a nonprofit charitable, educational or scientific institution, or governmental entity operating exclusively for charitable and educational purposes. •Have demonstrated competence and capacity to execute the proposed work. <p>APF will not consider the following requests for grants to support:</p> <ul style="list-style-type: none"> •Political or lobbying purposes. •Entertainment or fundraising expenses. •Anyone the Internal Revenue Service would regard as a disqualified group or individual. •Localized direct service. •Conference/workshop expenses. <p>Institutional Review Board approval must be received from host institution before funding can be awarded if human participants are involved.</p>	\$1,000	9/15/2021	
Howard Hughes Medical Institute (HHMI)	*Limited Submission* Gilliam Fellowships for Advanced Study		none (nomination by NIGMS T32 PI required)	\$50,000	Internal App due: 9/19/2019; Nomination due October 2019; Full App: January 2020	

Sexual Medicine Society of North America	Scholars in Sexuality Research Grants Program	The Sexual Medicine Society of North America (SMSNA) "Scholars in Sexuality Research Grants Program" offers young investigators interested in sexuality research the opportunity to obtain funding to support their research while engaged in qualifying research in sexuality. It is the purpose of the SMSNA to increase public awareness of healthy sexuality and sexual problems, to foster the finest care for individuals suffering from sexual debility, and to encourage scholarship and research in human sexuality. It is our hope that this program will encourage young people to become interested in sexuality research and make it a focal point of their careers.	Funding is available for graduate or medical students, residents in graduate medical education training programs, and post-doctoral/post-residency fellows. Because sexual medicine is a multi-disciplinary field and sex impacts almost every aspect of human endeavor in some way, we encourage applications from aspiring researchers representing diverse backgrounds including but not limited to urology, psychology, psychiatry, gynecology, internal medicine, geriatrics, public health, physiology, genetics, molecular biology, social work, and law. Research projects must be carried out within North America to qualify for funding.	\$5,000	9/30/2020	
Smithsonian Institute	Minority Awards Program – Visiting Student	The Smithsonian Minority Awards Program administered through the Office of Fellowships and Internships provides undergraduate and graduate students the opportunity to learn more about the Smithsonian and their academic fields through direct experience in research or museum-related internship projects under the mentorship of research and professional staff members at the Institution's many museums, research institutes and offices. Under the guidance of Smithsonian staff who are experts in their fields, Smithsonian Interns are inspired to learn, examine and collaborate in their specific academic fields that relate to current research at the Smithsonian. The Smithsonian offers these internships to increase participation of groups who are underrepresented in the in the disciplines of research conducted at the Institution, and in the museum field.	U.S. Citizen or permanent resident; Must be formally enrolled in an undergraduate or in a graduate program (this includes community college students). Students are generally expected to have an overall G.P.A. of 3.0 or its equivalent.	\$6,500	10/1/2020	
Embassy of France in the US	Chateaubriand HSS Fellowship Program	Supports outstanding Ph.D. students from American universities who wish to conduct research in France for a period ranging from 4 to 9 months. The program is divided into two subprograms: Science, Technology, Engineering, Math, & Health; and Humanities & Social Sciences.	no French citizens	up to 1,500 Euros plus travel & insurance	Next call will open October 2020	
Smithsonian Institute	Native American Awards Program – Visiting Student	The Native American Awards Visiting Student falls within the Native American Awards Program which supports students, who are formally or informally affiliated with a Native American community or tribe, to visit the Institution to conduct independent research using its Native American-related resources in with the advice and guidance of Smithsonian research staff.	Graduate students, who are formally or informally affiliated with a Native American community or tribe and interested in pursuing an independent research project related to Native American resources. Engaged in graduate study at the time of the appointment in good academic standing with an overall G.P.A. of 3.0 or equivalent. Must be available full-time (40 hours per week) for a maximum of ten weeks during the summer, fall, or spring.	\$6,000	10/1/2020	
American Psychological Foundation (APF)	Annette Urso Rickel Foundation Dissertation Award for Public Policy	The APF Annette Urso Rickel Foundation Dissertation Award for Public Policy supports dissertation research on public policy, which has the potential to improve services for children and families facing psychosocial issues such as prevention of child abuse, school programs for children with psychological issues, services for youth in the criminal justice system, healthy parenting, math and science education, and contributing to the adoption of sound policy affecting children, youth and families.	Graduate student in psychology enrolled full time in good standing in a regionally accredited institution located in the U.S. or Canada. Completed doctoral candidacy, including dissertation approval by doctoral committee. Demonstrated research competence and area commitment. IRB approval must be received from host institution before funding can be awarded if human participants are involved.	\$1,000	10/1/2019	
American Psychological Foundation	Scott and Paul Pearsall Grant	The Scott and Paul Pearsall Grant supports graduate and early career work that seeks to increase the public's understanding of the psychological pain and stigma experienced by adults living with visible physical disabilities, such as cerebral palsy. Program Goals •Encourage talented students and early career researchers to orient their careers to understanding the psychological effect of stigma on people with visible disabilities. •Develop strategies to improve the public's understanding of the psychological pain and stigma felt by individuals with visible physical disability, in order to reduce harmful misconceptions. •Encourage dissemination of findings to the public, expressly through media.	Applicants must: •Be a full-time graduate student in good standing at an accredited university or an early career psychologist (no more than 10 years post-doctoral). •Have received IRB approval before funding can be awarded if human participants are involved.	\$10,000	10/1/2021	

Facebook	Facebook Fellowship Program	The Facebook Fellowship is a global program designed to encourage and support promising doctoral students who are engaged in innovative and relevant research in areas related to computer science and engineering at an accredited university. The program is open to students in any year of their PhD study and supports talented students from traditionally under-represented minority groups. Applications are evaluated based on the strength of the student's research statement, publication record and recommendation letters.	Applicants must be full-time PhD students currently involved in ongoing research who are enrolled in an accredited university in any country. Students' work must be related to one or more relevant disciplines (see research areas in announcement). Students must be enrolled during the academic year(s) the Fellowship is awarded.	\$84,000 plus tuition and fees	10/2/2020	
US Department of State (DOS)	Fulbright US Student Program	The Fulbright U.S. Student Program provides grants for individually designed study/research projects or for English Teaching Assistant Programs.	Must be US citizen.	transportation, lodging and other expenses	Currently paused until further notice due to COVID-19	
Society of Toxicology	Syngenta Fellowship Award	The Syngenta Fellowship Award in Human Health Applications of New Technologies is presented to either a third year (or later) graduate student or a postdoctoral trainee. Fellowship funding is to support mode-of-action research aimed at characterizing dose-dependent effects of xenobiotics on mammalian systems in such a way that the causal sequence of key events underlying toxicity is elucidated. The work should permit a quantitative basis for extrapolation of the results from animal bioassays or animal models (in silico, in vitro) to humans at relevant human doses.	The applicant must be a third year (or later) graduate student or postdoctoral trainee employed by academic institution, federal/national laboratory, or research institute. Applicant is member of the Society, or membership is pending at application deadline, or if not a member, awardee will apply before the fellowship is conferred.	\$15,000 + travel	10/9/2020	
Institute of International Education	Fulbright U.S. Student Program	The Fulbright U.S. Student Program offers fellowships for U.S. graduating college seniors, graduate students, young professionals and artists to study, conduct research, and/or teach English abroad. In addition, Critical Language Enhancement Awards are available to grantees for study of critical need foreign languages before or during their grant period. Fulbright is a program of the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA).	<ul style="list-style-type: none"> •Applicants must be citizens or nationals of the United States of America at the time of application. Permanent residents are not eligible. Please review the Ineligibility section below in relation to the eligibility of dual citizens. •Applicants must have a conferred bachelor's degree or equivalent before the start of the grant. •In the creative and performing arts, four years of professional training and/or experience meets the basic eligibility requirement. •Applicants must meet the language requirements of the award to which they are applying and demonstrate sufficient competency to complete their project and adjust to life in the host country. •Applicants may hold a J.D. at the time of application. •Doctors of Medicine may receive grants for advanced academic study, but not for internships or residencies. Scholars with an M.D. degree who have completed their formal postgraduate training and propose attachment to a hospital or clinic for the purpose of independent or collaborative research should apply to the Fulbright U.S. Scholar Program. Grants shall not authorize activity for which a license to practice medicine or nursing is required. The Fulbright Program cannot authorize proposals for medical research that involves clinical training, patient care or patient contact. 		10/13/2020	

Institute of International Education	Fulbright Critical Language Enhancement Award	<p>The Critical Language Enhancement Award (CLEA) is a feature of the U.S. Student Fulbright Program, which provides an opportunity for some Fulbright U.S. Student grantees to receive typically from three to six months of intensive language study as an enhancement to their Fulbright grants. Language instruction providers and duration of individual programs are subject to change and vary by eligible country. They must be approved by local Fulbright Commissions/Foundations or U.S. Embassies in the host countries. CLEA is offered to students once they have been awarded a Fulbright U.S. Student grant which requires that they use one of the eligible languages for their Fulbright project and beyond.</p> <p>The purpose of the Critical Language Enhancement Award is to cultivate higher levels of language proficiency prior to and during the Fulbright grant period and beyond. Ultimately, Critical Language Enhancement grantees will achieve a high level of proficiency in a targeted language and will go on to careers or further study which will incorporate the use of the language studied and/or related languages.</p> <p>The Critical Language Enhancement Award helps promote the Fulbright Program's goals of cross-cultural exchange and dialogue. Fulbright grantees capable of communicating in the local language in their host countries are likely to form stronger bonds with their peers, conduct more meaningful research, and develop a greater understanding of a foreign culture. The experience grantees bring home after their Critical Language Enhancement Award and Fulbright grant will serve them in their chosen careers and throughout their lives.</p>	<ul style="list-style-type: none"> •Be selected for a Fulbright Study/Research Grant (or ETA, in some cases) by the eligible country for which they applied. •Meet the minimum CLEA language requirement of the host country by the start of the Fulbright grant. See Fulbright country summary for minimum requirement. •Demonstrate an interest in continuing their language training in future professional activities. 	Tuition, stipend, travel, health and accident coverage, book allowance	10/13/2020	
American Cancer Society (ACS)	Doctoral Degree Scholarship in Cancer Nursing	<p>Doctoral Degree Scholarships in Cancer Nursing</p> <p>Awarded to graduate students who are pursuing doctoral study in the field of cancer nursing research and preparing for careers as nurse scientists.</p>	Applicants must be United States citizens, or permanent residents. The Society will allow only one designated individual as principal investigator, responsible and accountable for the overall conduct of the project; the Society does not recognize co-principal investigators.	\$30,000	10/15/2020	
American Cancer Society (ACS)	Doctoral Training Grant in Oncology Social Work	<p>Doctoral Training Grants in Oncology Social Work grant is awarded to qualifying doctoral students at schools of social work that train individuals to conduct research relevant to oncology social work.</p>	Applicants for the Clinician Scientist Development Grant and Postdoctoral Fellowships must be, at the time of application, United States citizens, or permanent residents. The Society will allow only one designated individual as principal investigator, responsible and accountable for the overall conduct of the project; the Society does not recognize co-principal investigators. Although applicants may apply for multiple awards, a grantee may not be the principal investigator on more than one ACS grant at any time.	\$40,000 (renewable for 2 additional yrs)	10/15/2020	
Chiang Ching-kuo Foundation for International Scholarly Exchange	Doctoral Fellowships	support for writing dissertations in the field of Chinese Studies in the humanities and social sciences	non-ROC citizens	\$20,000	10/15/2020	
American Psychological Foundation	Lizette Peterson-Homer Injury Prevention Grant	<p>The Lizette Peterson Homer Memorial Injury Research Grant supports research into psychological and behavioral aspects of the prevention of injuries in children and adolescents as reflected in the activities and interests within pediatric psychology of the late Lizette Peterson-Homer and her commitment to improving the status of children in the face of the most significant threats to their health and development. This grant is open to students and faculty to support research related to the prevention of injuries in children and adolescents. Funding is available up to \$5,000 and is sponsored jointly by the American Psychological Foundation and APA Div. 54.</p>	<p>Research should focus on prevention of physical injury in children and adolescents. More information about the criteria on which applications will be judged is available from Div. 54. Funds are not provided for convention and meeting travel.</p> <p>Requirements:</p> <ul style="list-style-type: none"> •student and/or faculty at an accredited university •demonstrated research competence and area commitment •IRB approval must be received from host institution before funding can be awarded if human participants are involved. 	\$5,000	10/15/2021	

NIH National Institute on Drug Abuse (NIDA)	Substance Use/Substance Use Disorder Dissertation Research Award (R36 - Clinical Trials Optional) PA-20-208	<p>The goal of this FOA is to support doctoral candidates from a variety of academic disciplines for up to two years for the completion of the doctoral dissertation research project. Research projects should align with NIDA funding priorities (https://www.drugabuse.gov/funding/funding-priorities) or within the NIDA Strategic Plan (https://www.drugabuse.gov/about-nida/2016-2020-nida-strategic-plan). This award will facilitate the entry of promising new investigators into the field of substance use/substance use disorder (SU/D) research, enhancing the pool of highly talented SU(D) researchers. Applications are particularly encouraged from those who can contribute to diversifying the research workforce as described in the Notice of NIH's Interest in Diversity (NOT-OD-20-031).</p> <p>Research supported by NIDA encompasses basic, behavioral, and treatment research related to the underlying mechanisms and health effects of substances of abuse. This FOA will provide students with support to perform substance use/substance use disorder (SU/D) dissertation research on a topic related to the study of basic, clinical, developmental, epidemiology, prevention, treatment, services, or women and sex/gender differences as they relate to SU/D research, and thereby increase the pool of highly talented SU/D scientists who conduct research in these areas. NIDA is especially interested in improving the research career preparedness of individuals from underrepresented groups by providing support to complete the dissertation. This FOA seeks to help individuals obtain the necessary qualifications at the doctoral-level with an intent to subsequently establish and lead a</p>	<p>The PD/PI must have an appointment at the applicant institution (e.g., research assistant). Eligible PD/Pis are predoctoral students at the dissertation stage of training with the skills, knowledge, and resources necessary to carry out the proposed research. The applicant must have an approved dissertation proposal (at the time of award), show evidence of high academic performance in the sciences, and a commitment to a career as an independent research scientist, or as an independent physician-scientist or other clinician-scientist (dual-degree training). The applicant must be currently enrolled in a PhD or equivalent research degree program (e.g., EngD, DNSc, DrPH, DSW, PharmD, PsyD, ScD), a formally combined MD/PhD program, or other combined professional/clinical and research doctoral (e.g., DDS/PhD) in the biomedical, behavioral, or clinical sciences.</p>	\$100,000	10/16/2020	February 16, June 16, October 16
National Science Foundation (NSF)	Graduate Research Fellowship Program (GRFP) - Life Sciences	<p>The purpose of the NSF Graduate Research Fellowship Program (GRFP) is to help ensure the vitality and diversity of the scientific and engineering workforce of the United States. The program recognizes and supports outstanding graduate students who are pursuing full-time research-based master's and doctoral degrees in science, technology, engineering, and mathematics (STEM) or in STEM education. The GRFP provides three years of support for the graduate education of individuals who have demonstrated their potential for significant research achievements in STEM or STEM education. NSF especially encourages women, members of underrepresented minority groups, persons with disabilities, veterans, and undergraduate seniors to apply.</p>	<p>Candidate must be a U.S. citizen, national, or permanent resident. Intend to enroll or be enrolled full-time in a research-based graduate degree program in an eligible Field of Study in STEM or STEM education. Have never previously accepted a GRFP award If previously offered a GRFP award, have declined by the deadline, Have never previously applied to GRFP while enrolled in a graduate degree program, Have never earned a doctoral or terminal degree in any field, Have never earned a master's, professional, or bachelor's-master's degree in any field, unless (i) returning to graduate study after an interruption of two (2) or more consecutive years immediately preceding the deadline, and; (ii) are not enrolled in a graduate degree program at the application deadline, and not be a current NSF employee.</p>	\$138,000	10/19/2020

Open Philanthropy Project	The Open Phil AI Fellowship	The Open Phil AI Fellowship is a fellowship for full-time PhD students focused on artificial intelligence or machine learning. With this program, we seek to fully support a small group of the most promising PhD students in AI and ML who are interested in making the long-term, large-scale impacts of AI a central focus of their research. Fellows receive a \$40,000 stipend, \$10,000 in research support, and payment of tuition and fees, each year, starting in the year of their selection until the end of the 5th year of their PhD.	Who can apply: The Open Phil AI Fellowship is open to full-time AI and machine learning students in any year of their PhD. Anyone who expects to be enrolled in a PhD program is welcome to apply (including undergraduate seniors applying to AI or ML PhD programs). The program is open to applicants in any country. Students with pre-existing funding sources are welcome to apply, as are students transferring to an AI/ML PhD from another field. If you aren't sure whether you're eligible, please feel free to ask: aifellowship@openphilanthropy.org. Our best guess is that we will fund 5-10 applicants each year.	\$250,000	10/22/2020	

Hertz Foundation	Graduate Fellowship Award	<p>The Hertz Foundation awards fellowships to graduate students pursuing a PhD in the applied physical and biological sciences, mathematics, or engineering.</p> <p>We do not award fellowships based on an applicant's particular field of study; however, we do require that applicants direct their work toward understanding and solving major, near-term problems facing society. For each applicant, that could mean something different—inventing a new technology, developing a business, or applying their interests in innovative ways.</p> <p>It's up to the applicant to advocate for their specific field of study and demonstrate how it will be applied to address real-world challenges with the greatest impact.</p> <p>The Hertz Fellowship provides financial and lifelong professional support for the nation's most promising graduate students in science and technology.</p> <p>The fellowship includes up to five years of funding, valued at up to \$250,000, and the freedom to pursue innovative projects wherever they may lead. In addition, fellows take part in ongoing mentoring, symposia, and workshops with our vibrant community of more than 1200 fellows, a set of peers who span disciplines, generations, and geography.</p>	<p>All eligible applicants must:</p> <ul style="list-style-type: none"> •be college seniors, first-year graduate students, or in a gap year preparing to apply to graduate school; •intend to pursue a PhD in the applied physical and biological sciences, mathematics, or engineering; •intend to direct their studies toward understanding and solving major, near-term problems facing society; and •be citizens or permanent residents of the United States. <p>We do not award fellowships to applicants pursuing professional degrees other than a PhD, such as an MD, JD, MBA, DPH, or DVM. However, we will support the PhD portion of an MD/PhD program.</p>	\$250,000	10/23/2020	
American Council of Learned Societies (ACLS)	Mellon/ACLS Dissertation Completion Fellowship	<p>ACLS invites applications for Mellon/ACLS Dissertation Completion Fellowships, which support a year of research and writing to help advanced graduate students in the humanities and related social sciences in the last year of PhD dissertation writing. The program encourages timely completion of the PhD. Applicants must be prepared to complete their dissertations within the period of their fellowship tenure and no later than August 31, 2021. A grant from The Andrew W. Mellon Foundation supports this program.</p> <p>ACLS will award 65 fellowships in this competition for a one-year term beginning between June and September 2020 for the 2020-21 academic year. The fellowship may be carried out in residence at the fellow's home institution, abroad, or at another appropriate site for the research. These fellowships may not be held concurrently with any other fellowship or grant.</p> <p>The total award of up to \$43,000 includes a stipend plus additional funds for university fees and research support. In addition to the monetary support that the fellowship offers, Dissertation Completion Fellows may apply to participate in a seminar on preparing for the academic job market. The seminar takes place over three days in the fall of the fellowship year.</p>	<p>Applicants must:</p> <ul style="list-style-type: none"> •be PhD candidates in a humanities or social science department in the United States. (1) •have completed all requirements for the PhD except the dissertation (i.e., obtained ABD status) by the application deadline. •be no more than six years into the degree program at the time of application. This includes time spent earning an MA within that program. (2) •not currently hold or have previously held a dissertation completion fellowship. <p>have not previously applied for this fellowship more than once.</p>	\$43,000	10/28/2020	
American Council on Learned Societies (ACLS)	Luce/ACLS Dissertation Fellowships in American Art	<p>ACLS invites applications for Luce/ACLS Dissertation Fellowships in American Art, which are designated for graduate students at any stage of PhD dissertation research or writing. The fellowships may be carried out in residence at the fellow's home institution, abroad, or at another appropriate site for the research. The fellowships may not be used to defray tuition costs or be held concurrently with any other major fellowship or grant.</p>	<p>Applicants must: be a PhD candidate in a department of art history in the United States. A student with an appropriate project whose degree will be granted by another department is eligible only if the principal dissertation advisor is in a department of art history. Have a dissertation focused on a topic in the history of the visual arts of the United States. Projects should be focused foremost on the art object and/or image and employ an art-historical or visual studies approach. Have completed all requirements for the PhD except the dissertation before beginning fellowship tenure. And have not previously applied for this fellowship more than once.</p>	\$42,000	10/28/2020	

Second Century Stewardship	Research Fellowship	<p>SCS seeks to advance conservation and ecosystem science and support stewardship of park resources. The selected Research Fellows will contribute to strengthening and broadening public understanding of the importance of science for parks and society.</p> <p>The Research Fellows will conduct research to help realize the vision of national parks as natural laboratories, tellers of science narratives, and exemplars of using science to manage natural and cultural resources and enrich visitor, local community, and employee experiences. The research will help NPS and other organizations adapt and respond to ongoing change and focus on long-term ecological and cultural integrity and viability in a dynamic and challenging future.</p> <p>Goals of Second Century Stewardship</p> <ul style="list-style-type: none"> • Support stewardship of park resources through advancing conservation and ecosystem science. • Strengthen public understanding of the importance of science for parks and society. • Increase public engagement with science. • Pursue solutions to critical conservation challenges. 	We encourage early-career scientists, assistant professors, postdoctoral researchers, and graduate students to apply. Applicants must be U.S. residents and at least 18 years in age. Employees of NPS and Schoodic Institute are not eligible to apply.	\$20,000	10/29/2020	
National Academies of Sciences, Engineering and Medicine	NRC Research Associateship Programs	The National Academies of Sciences, Engineering, and Medicine administers postdoctoral and senior research awards at participating federal laboratories and affiliated institutions at locations throughout the U.S and abroad. All research opportunities are open to U.S. citizens; some are open to U.S. permanent residents and foreign nationals.	Awards are available for scientists and engineers at all stages of their career. Applicants should hold, or anticipate receiving, an earned doctorate in science or engineering. Degrees from universities abroad should be equivalent in training and research experience to a degree from a U.S. institution. Many awards are open to foreign nationals as well as to U.S. citizens.	\$83,000 + some benefits & travel	11/1/2020	
American Psychological Foundation (APF)	Roy Scrivner Memorial Research Grant	<p>Lesbians, gays, bisexuals and trans (LGBT) people face many challenges in forming, defining and maintaining families. This program seeks to encourage the study of LGBT family psychology and therapy through its support of promising young investigators whose graduate research is oriented toward issues in this general area. Preference is given to advanced students who have demonstrated their commitment to this area through their dissertation research plans.</p> <p>Program Goals:</p> <ul style="list-style-type: none"> •Encourage talented students to orient their careers toward engaging LGBT family issues through basic and/or applied research. •Advance the understanding of problems faced by LGBT families including those associated with cultural, racial, socioeconomic and family structure diversity. •Advance the understanding of successful coping mechanisms including sources of support and resilience for family members. •Advance the understanding of clinical issues and interventions in the domain of LGBT. 	Advanced graduate student, in good standing, endorsed by supervising professor. Demonstrated commitment to LGBT family issues. IRB approval must be received from host institution before funding can be awarded if human participants are involved.	\$8,000	11/1/2021	
Fahs-Beck Fund	Doctoral Dissertation Grant Program (Fahs-Beck Scholars)	Grants of up to \$5,000 are available to help support dissertation expenses of doctoral students in the United States and Canada whose studies have the potential for adding significantly to knowledge about problems in the functioning or well being of children, adults, couples, families, or communities, or about interventions designed to prevent or alleviate such problems. The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.	Applicants must be enrolled in an accredited doctoral program in the United States or Canada. The sponsoring organization must agree to accept administrative responsibility for the project and submit required financial forms and reports to the Fund.	\$5,000	11/1/2020	

American Association of University Women (AAUW)	American Fellowships Dissertation Fellowship	AAUW's American Fellowships program has been in existence since 1888, making it the oldest noninstitutional source of graduate funding for women in the United States. The program provides fellowships for women pursuing full-time study to complete dissertations, conducting postdoctoral research full time, or preparing research for publication for eight consecutive weeks. Applicants are evaluated on the basis of scholarly excellence; quality and originality of project design; and active commitment to helping women and girls through service in their communities, professions, or fields of research.	American Fellowships are open to women scholars in all fields of study who are US Citizens or Permanent residents. The American Dissertation Fellowship must be used for the final year of writing the dissertation. Applicants must have completed all coursework, passed all preliminary exams, and had the dissertation research proposal or plan approved by November 1, 2019. The doctoral degree/dissertation must be completed between April 1 and June 30, 2021. Degree conferral must be between April 1 and September 15, 2021. Students already holding a fellowship or grant for the purpose of supporting their final year of writing or completing the dissertation the year before the fellowship year are not eligible to apply.	\$20,000	11/1/2020	
Smithsonian Institute	Smithsonian Institution Fellowship Program (SIFP) - Graduate Student Fellowship	The Smithsonian Institution Fellowship Program offers opportunities for independent research or study related to Smithsonian collections, facilities, and/or research interests of the Institution and its staff. Fellowships are offered to graduate students, predoctoral students, and postdoctoral and senior investigators to conduct independent research and to utilize the resources of the Institution with members of the Smithsonian professional research staff serving as advisors and hosts.	When they apply, students must be formally enrolled in a graduate program of study at a degree-granting institution. Before the appointment begins fellows must still be enrolled and must have completed at least one full-time semester or its equivalent, or have completed the graduate program within the past four months. Graduate Student Fellowships are usually intended for students who have not yet been advanced to candidacy if in a doctoral program.	\$7,500	11/1/2020	
Smithsonian Institute	Smithsonian Institution Fellowship Program (SIFP) - Predoctoral Fellowship	The Smithsonian Institution Fellowship Program offers opportunities for independent research or study related to Smithsonian collections, facilities, and/or research interests of the Institution and its staff. Fellowships are offered to graduate students, predoctoral students, and postdoctoral and senior investigators to conduct independent research and to utilize the resources of the Institution with members of the Smithsonian professional research staff serving as advisors and hosts.	Students enrolled in a university as candidates for the Ph.D. or equivalent are eligible for predoctoral fellowships. By the time the appointment begins, the university must approve the undertaking of dissertation research at the Smithsonian Institution and certify that requirements for the doctorate, other than the dissertation, have been met.	\$40,000	11/1/2020	
American Association of University Women	American Fellowships	AAUW American Fellowships support women scholars who are completing dissertations, planning research leave from accredited institutions, or preparing research for publication. Applicants must be U.S. citizens or permanent residents. Candidates are evaluated on the basis of scholarly excellence; quality and originality of project design; and active commitment to helping women and girls through service in their communities, professions, or fields of research. There are three types of American Fellowship Opportunities: DISSERTATION FELLOWSHIPS POSTDOCTORAL RESEARCH LEAVE FELLOWSHIPS SHORT-TERM RESEARCH PUBLICATION GRANTS	American Fellowships are not open to previous recipients of any AAUW national fellowship or grant (not including branch or local awards or Community Action Grants). Members of the AAUW Board of Directors, committees, panels, task forces and staff, including current interns, are not eligible to apply for AAUW's fellowships and grants. A person holding a current award is eligible for election or appointment to boards, committees, panels, and task forces. American Fellowship candidates must be U.S. citizens or permanent residents. American Fellowships are open to women scholars in all fields of study.	\$30,000	11/1/2020	

American Academy in Rome	Rome Prize Fellowships	<p>For over a century, the American Academy in Rome has awarded the Rome Prize to support innovative and cross-disciplinary work in the arts and humanities. Each year, the prize is awarded to about thirty artists and scholars who represent the highest standard of excellence and who are in the early or middle stages of their careers.</p> <p>Fellowships are awarded in the following disciplines: Ancient Studies Architecture Design (includes graphic, industrial, interior, exhibition, set, costume, and fashion design, urban design, city planning, engineering, and other design fields) Historic Preservation and Conservation Landscape Architecture (includes environmental design and planning, landscape/ecological urbanism, landscape history, sustainability and ecological studies, and geography) Literature (includes fiction, literary nonfiction, and poetry) Medieval Studies Modern Italian Studies Musical Composition Renaissance and Early Modern Studies Visual Arts (includes painting, sculpture, drawing, photography, film/video, installation, new media, digital arts, and other visual-arts fields)</p>	<p>Applicants for all Rome Prize Fellowships, except those applying for the NEH postdoctoral fellowship, must be United States citizens at the time of the application.</p> <p>US citizens, and those foreign nationals who have lived in the United States for three years immediately preceding the application deadline, may apply for the NEH postdoctoral fellowships in ancient studies, medieval studies, Renaissance and early modern studies, or modern Italian studies.</p> <p>Graduate students in the humanities may apply for predoctoral fellowships only if they are ABD.</p> <p>Previous winners of the Rome Prize are not eligible to reapply. Undergraduate students are not eligible.</p> <p>Collaborators may submit joint applications provided their work is genuinely collaborative, as demonstrated by the materials submitted. In the case of joint applications, each individual must meet all eligibility requirements. Joint applications must be submitted in one package. Joint applicants selected as winners will share one prize (i.e., room and board, stipend, work space).</p> <p>Winners of the Rome Prize may hold other fellowships concurrently, as long as the requirements do not conflict with the winner's full participation in the Academy community. Applicants are required to disclose all fellowships and awards they expect to hold during their proposed residency in Rome, including sabbatical pay. The Academy may make adjustments to the stipends based on other awards intended to fund the project for which the Rome Prize was received. Rome Prize Winners may not hold a full-time job during the fellowship term. Winners may undertake part-time work commitments (including scholarly or artistic work that is not related to the Rome Prize project),</p>		11/1/2020	
Newberry Library	Long-term fellowship	<p>Long-Term Fellowships are intended to support individual scholarly research and promote serious intellectual exchange through active participation in the Newberry's scholarly activities, including Fellows' Seminars and Weekly Colloquium.</p> <p>These residential fellowships are available to scholars who hold a PhD or other terminal degree for 4 to 9 months with a stipend of \$4,200 per month. Awardees may combine their Newberry fellowship award with sabbatical funding or other stipendiary support. Fellows are welcome to stay in residence at the Newberry beyond the terms of their fellowship, but the amount of their stipend cannot be increased beyond the initial award.</p> <p>Applicants must hold a PhD by the November 1 deadline.</p>	<p>United States citizens are eligible for all Newberry Fellowships. Permanent United States residents who have had at least three years of continuous residence in the U.S. are eligible for all fellowships. Recent United States residents who have had less than three years of continuous residence in the U.S. are eligible for all fellowships except the National Endowment for the Humanities (NEH) Fellowships. Citizens of foreign nations are eligible for all fellowships except the National Endowment for the Humanities (NEH) Fellowships. Long-Term Fellowships are open only to postdoctoral scholars who have been awarded the PhD degree or other equivalent terminal degree by the Newberry's application deadline.</p>	\$4,200 per month	11/1/2020	
The Social Science Research Council	International Dissertation Research Fellowship (IDRF)	<p>Provides nine to twelve months of support to graduate students in the humanities and humanistic social sciences who are enrolled in PhD programs in the United States and conducting dissertation research on non-US topics.</p>	graduate students in the humanities and humanistic social sciences	\$23,000	11/5/2019	
American Philosophical Society (APS)	Lewis and Clark Fund in Exploration and Field Research in Astrobiology	<p>The Lewis and Clark Fund encourages exploratory field studies for the collection of specimens and data and to provide the imaginative stimulus that accompanies direct observation. Applications are invited from disciplines with a large dependence on field studies, such as archaeology, anthropology, biology, ecology, geography, geology, linguistics, paleontology, and population genetics, but grants will not be restricted to these fields. Graduate students and postdoctoral and junior scientists wishing to pursue projects in astrobiological field studies should consult the program description and application forms for the Lewis and Clark Fund in Exploration and Field Research in Astrobiology.</p>	Grants will be available to doctoral students who are US citizens and residents.	\$5,000	LOI - 11/12/2020; Full App - 11/16/2020	

Department of Energy	Office of Science Graduate Student Research (SCGSR) Program	The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory/facility in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students' overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories/facilities.	Applicant must be US citizen or permanent resident. Applicants must be enrolled full-time in a Qualified Graduate Program with the Ph.D. as their degree objective. At the time of application, applicants must have obtained the Ph.D. candidacy at their home institution, and must have established a defined graduate thesis project and graduate thesis advisor. The applicant's primary graduate thesis advisor must provide a Letter of Support.	living stipend + transportation	11/12/2020	
Commercial Spaceflight Federation	Matthew Isakowitz Fellowship Program	The Matthew Isakowitz Fellowship Program is a highly selective internship and mentorship program that provides extraordinary summer opportunities to current college juniors, seniors, and graduate students passionate about commercial spaceflight. The program connects exceptional current college juniors, seniors, and graduate students with paid, summer internships in the exciting field of commercial spaceflight, as well as with notable aerospace leaders for mentorship. Fellows are matched to a position that may include assignments in engineering designs, market studies, strategic planning, policy evaluation, and business analysis and development.	Applicant is a college junior, college senior, or graduate student who intends to pursue a full-time career in the commercial spaceflight industry. Has either earned an engineering degree or is working towards one at the time the Fellowship begins. Has a diversity in experience and academic interests such as in engineering, science, management, business, and other related fields that can be related to commercial space. Is a U.S. citizen or U.S. permanent resident.	Paid 10-12 week summer internship	11/13/2020	
Dolores Zohrab Liebmann Fund	Fellowships	Funding Interests: <ul style="list-style-type: none"> • Graduate school fellowships in any recognized field of study in the humanities, social sciences or natural sciences (including law, medicine, engineering, architecture or other formal professional training). • Independent research or study projects which must be carried out entirely in the United States of America. • Publications focusing on Armenian studies, Armenian history and Armenian literature of the nineteenth century or earlier. 	Graduate student applicants can be of any national descent but must be U.S. citizens. Independent research and study grants are restricted to scholars who are based in and conducting research in the United States. PLEASE NOTE: Independent research and study grants are offered only on rare occasion. The Fund also makes grants to support the publication of dissertations or historical or literary works focusing on Armenian culture or history. Fellowship candidates must have an outstanding undergraduate record, demonstrate financial need and be attending a designated college or university.	Tuition + \$18,000 per year	11/15/2020	April, November
Graham Foundation	Carter Manny Award	The Carter Manny Award supports dissertation research and writing by promising scholars whose projects have architecture as their primary focus and the potential to shape architectural discourse. Projects may be drawn from the various fields of inquiry supported by the Graham Foundation: architectural history, theory, and criticism; design; engineering; landscape architecture; urban planning; urban studies; visual arts; and other related fields. (See the Overview of our grant programs). The award assists students enrolled in graduate programs in architecture, art history, the fine arts, humanities, and the social sciences working on architecture topics. The Graham Foundation offers two Carter Manny Awards: a research award for a student at the research stage of the doctoral dissertation and a writing award for a student at the writing stage of the doctoral dissertation.	PhD students who are presently candidates for a doctoral degree are eligible to apply. Students must have completed all requirements for the PhD except the dissertation and have had their dissertation proposals formally approved by their academic departments. Students must be nominated by their department to apply for the Carter Manny Award.	\$15,000 (research) to \$20,000 (writing)	11/15/2020	
Association for Jewish Studies	AJS Dissertation Completion Fellowship Competition	encourage the timely completion of doctorates by the most promising graduate students in the field; create a cohort of fellows who will lead the field of Jewish Studies for decades to come; expose new audiences to Jewish Studies scholarship through fellows' public lectures; and promote continued growth of academic Jewish Studies.	<ul style="list-style-type: none"> • The applicant must be completing a dissertation in the field of Jewish Studies. • Applicants must be members of the AJS for the membership period running from January to December 2020. • Applicants must have completed all requirements of the PhD except the dissertation (ABD status) by the application deadline. • The dissertation must be in English, although citations may be in other languages provided translations are included. • Recipients of a Dissertation Completion Fellowship may not receive total grant support in excess of \$25,000 during their fellowship year. 	\$25,000	11/15/2020	

International Max Planck Research School for Molecular Life Sciences	International Max Planck Research School for Molecular Life Sciences: From Biological Structures to Neural Circuits (IMPRS-LS)	The IMPRS-LS offers its students the exciting opportunity to work in a stimulating research environment which is renowned worldwide for its cutting-edge research, progressive technologies and a wealth of well-resourced facilities. At the heart of our program are the research school's faculty members, whose leadership and innovative projects provide our doctoral students with a supportive, albeit challenging, research environment.	Entry level for doctoral studies at IMPRS-LS usually is a Master of Science degree or an equivalent degree. Candidates with a medical degree such as a MBBS degree (or an equivalent degree) and medical students from Germany are not eligible to apply to our PhD program.	tuition and monthly stipend to cover living in Munich, Germany.	11/15/2020	
Zonta Club of Anchorage	Amelia Earhart Fellowship	The Amelia Earhart Fellowship program helps talented women, pursuing advanced studies in the typically male-dominated fields of aerospace-related sciences and engineering, achieve their educational goals. The Fellowship enables these women to invest in state-of-the-art computers to conduct their research, purchase expensive books and resource materials, and participate in specialized studies around the globe. Amelia Earhart Fellows have gone on to become astronauts, aerospace engineers, astronomers, professors, geologists, business owners, heads of companies, even Secretary of the US Air Force.	Women of any nationality pursuing a Ph.D./doctoral degree who demonstrate a superior academic record in the field of aerospace-related sciences or aerospace-related engineering are eligible. Applicants must be registered in a full-time Ph.D./doctoral program when funds are received in September and will not graduate before April.	\$10,000	11/15/2020	
American Association of University Women (AAUW)	International Fellowship	The program provides support for women pursuing full-time graduate or postdoctoral study in the U.S. who are not U.S. citizens or permanent residents. A limited number of awards are available for study outside of the U.S. (excluding the applicant's home country) to women who are members of Graduate Women International (see the list of GWI affiliates). Preference is given to women who show prior commitment to the advancement of women and girls through civic, community, or professional work.	Applicant is NOT a US citizen or permanent resident. Must hold an academic degree (earned in the U.S. or abroad) equivalent to a U.S. bachelor's degree completed by November 15, 2019. Applicants must be conducting a full year of study or research.	Master's/first professional degree: \$18,000. Doctoral: \$20,000	11/15/2020	
American Association of University Women	International Fellowships	International Fellowships are awarded for full-time study or research in the United States to women who are not U.S. citizens or permanent residents. Both graduate and postgraduate studies at accredited U.S. institutions are supported. Applicants must have earned the equivalent of a U.S. bachelor's degree by November 15, 2019, and must have applied to their proposed institutions of study by the time of the application. Up to five International Master's/First Professional Degree Fellowships are renewable for a second year; fellows will receive application information for this competitive program. Recipients are selected for academic achievement and demonstrated commitment to women and girls. Recipients return to their home countries to become leaders in business, government, academia, community activism, the arts or scientific fields.	Have citizenship in a country other than the U.S. or possession of a nonimmigrant visa if residing in the U.S. Women who are currently, or expect to be during the fellowship year, a U.S. citizen, U.S. permanent resident, or dual citizen with the U.S. and another country are not eligible. Hold an academic degree (earned in the U.S. or abroad) equivalent to a U.S. bachelor's degree completed by 11/15/2019. Intend to devote herself full-time to the proposed academic plan during the fellowship year. Intend to return to her home country to pursue a professional career. Be proficient in English. Unless the applicant can verify that her native language is English (written statement required), that she received her secondary diploma or undergraduate degree from an English-speaking institution (transcript required), or that she will have completed one semester of full-time study in her discipline at an English-speaking college or university between Nov. 2017 and Nov. 2019 (transcript required), she must upload a recent ETS TOEFL* (Test of English as a Foreign Language) score. Institutional TOEFL scores and other English proficiency test scores (such as IELTS) will not be accepted. Minimum score acceptable: 550 for Paper-Based Test (TOEFL PBT, no older than Oct. 2017); 79 for Internet-Based Test (TOEFL iBT, no older than Nov. 2017); 60 for Revised TOEFL Paper-Delivered Test (no older than Nov. 2017). Master's/first professional degree and doctoral applicants must have applied by November 15, 2019, to an accredited institution of study for the period of the fellowship year and must indicate the name of the institution in the International Fellowship application. Master's/first professional degree fellowships are intended for	\$30,000	11/15/2020	

American Psychological Foundation	Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship	<p>*Limited Submission*</p> <p>The Elizabeth Munsterberg Koppitz Fellowship program supports graduate research projects and scholarships in child psychology.</p> <p>Program Goals</p> <ul style="list-style-type: none"> • Nurture excellent young scholars for careers in areas of psychology, such as child-clinical, pediatric, school, educational and developmental psychopathology. • Support scholarly work contributing to the advancement of knowledge in these areas. 	<ul style="list-style-type: none"> • Completed doctoral candidacy at the time of application (documentation required). • Demonstrated research competence and area commitment. • IRB approval must be received from host institution before funding can be awarded if human participants are involved. 	\$25,000	11/15/2020	
American Psychological Foundation	Queen-Nellie Evans Scholarship	The Queen-Nellie Evans Scholarship will recognize outstanding minority graduate students who have a demonstrated commitment to improving the conditions of marginalized communities. Preference is given to those who are preparing for a career in academia clinical service delivery, or public policy and see their work as helping to improve the condition of marginalized communities after the completion of their graduate studies. Both master's and doctorate students are welcome to apply.	Must be a minority graduate student enrolled in an accredited master's or doctoral program.	\$4,000	11/15/2021	
The Woodrow Wilson Foundation	The Charlotte W. Newcombe Doctoral Dissertation Fellowship	to encourage original and significant study of ethical or religious values in all fields of the humanities and social sciences, and particularly to help Ph.D. candidates in these fields complete their dissertation work in a timely manner.	<ul style="list-style-type: none"> • be candidates for Ph.D. or Th.D. degrees in an American doctoral program at a graduate school located in the United States. Candidates working on D.Min., law, Psy.D., Ed.D. and other professional degrees are not eligible. • have all pre-dissertation requirements fulfilled by the application deadline November 16, 2020, including approval of the dissertation proposal. • be in the writing stage of the dissertation. Usually, this means that fieldwork or other research is complete and writing has begun by the time of the award. • must expect to complete the dissertation between April 1, 2022 and August 31, 2022. • have never held a similar national award for the final year of dissertation writing. Applicants who have won such awards as the ACLS, AAUW, Ford, Mellon, NAEd/Spencer, or Whiting fellowship are not eligible. • be in a humanities or social science department, writing on topics where ethical or religious values are a central concern. • have never applied for the Charlotte W. Newcombe Doctoral Dissertation Fellowship before. Previous applicants may not apply. 	\$25,000	11/16/2020	
National Science Foundation (NSF)	Postdoctoral Research Fellowships in Biology (PRFB)	The Directorate for Biological Sciences (BIO) awards Postdoctoral Research Fellowships in Biology (PRFB) to recent recipients of the doctoral degree for research and training in selected areas supported by BIO and with special goals for human resource development in biology. The fellowships encourage independence at an early stage of the research career to permit Fellows to pursue their research and training goals in the most appropriate research locations regardless of the availability of funding for the Fellows at that site. For applications under this solicitation, these areas are (1) Broadening Participation of Groups Underrepresented in Biology, (2) Interdisciplinary Research Using Biological Collections, (3) National Plant Genome Initiative (NPGI) Postdoctoral Research Fellowships and (4) Integrative Research Investigating the Rules of Life Governing Interactions Between Genomes, Environment and Phenotypes.	U.S. Citizenship or permanent residency required. In Competitive Areas 1, 2 and 4, applicants should not have served in any position that requires the doctoral degree for more than 9 full time months prior to the deadline. In Competitive Area 3, applicants should not have served in any position that requires the doctoral degree for more than 12 full time months prior to the deadline. Applicant may not have submitted the same research to another NSF postdoctoral fellowship program.	\$168,000 (Areas 1,2,4) \$267,000 (Area 3)	11/18/2020	

American Association for Cancer Research (AACR)	Scholar-in-Training Awards: Annual Meeting	Since its inception in 1986, the AACR Annual Meeting Scholar-in-Training Award program has provided more than 4,700 grants to young investigators and has received support from more than forty cancer research foundations, corporations, individuals, and other organizations dedicated to the fight against cancer. Scholar-in-Training Awards are highly competitive and are presented to fewer than ten percent of applicants. Scholar-in-Training Awards recognize outstanding young investigators presenting meritorious proffered papers at the AACR Annual Meeting.	Applicants must be the first author and presenter of an abstract submitted for presentation at the Annual Meeting. Applicants must be an Associate Member of the AACR. Nonmember graduate students, medical students and residents, clinical fellows or equivalent, and postdoctoral fellows who wish to apply for a Scholar-in-Training Award should submit a Membership Application Form by Nov. 25, 2019 in order to obtain membership in time to then submit an application for a Scholar-in-Training Award. Applicants cannot be employees or subcontractors of for-profit private industry. Applicants may apply for other travel awards, but may only receive one award from the AACR to attend the Annual Meeting.	Funds to cover travel to the annual meeting	11/19/2020	
Dan David Foundation	Dan David Prize	The Dan David Prize is an international award for achievements having an outstanding scientific, technological, cultural or social impact on our world. Each year fields are chosen within the three Time Dimensions - Past, Present and Future. The Dan David Prize recognizes and encourages innovative and interdisciplinary research that cuts across traditional boundaries and paradigms. It aims to foster universal values of excellence, creativity, justice, democracy, and progress and to promote the scientific, technological and humanistic achievements that advance and improve our world.	Must be nominated due to a singular achievement or a series of achievements and continues to make a unique, profound contribution to humanity, on a global scale, in one of the selected fields for the year in which the nomination is being made.	\$1,000,000	11/30/2020	
American Association of University Women (AAUW)	Selected Professions Fellowships	Selected Professions Fellowships are awarded to women who intend to pursue a full-time course of study at accredited U.S. institutions during the fellowship year in one of the designated degree programs where women's participation traditionally has been low (see list below).	Must be U.S. citizens or permanent residents. Priority is given to women who do not already hold a master's or first professional degree. The following disciplines and master's level degrees are eligible for fellowship funding in any year of study: Architecture (M.Arch.), Computer/information science (MS) Engineering (ME, MS) Mathematics/statistics (MS).	up to \$18,000	12/1/2020	
Autism Science Foundation	Predoctoral Training Awards	The Autism Science Foundation invites applications for its Pre- and Postdoctoral Training Awards from graduate students, medical students and postdoctoral fellows interested in pursuing careers in basic and clinical research relevant to autism spectrum disorders.	Applicants for predoctoral awards must be enrolled students in good standing in a program leading to a research doctorate such as a Ph.D. or Sc.D. or a dual degree such as an M.D./Ph.D. in an academic department at an accredited university or health/medical institution.	\$25,000	Due to COVID-19, this funding mechanism has been put on hold.	
Link Foundation	Energy Fellowship Program	The Link Foundation supports programs to foster the theoretical basis, practical knowledge, and application of energy, simulation, and ocean engineering and instrumentation research, and to disseminate the results of that research through lectures, seminars and publications.	The applicant must be working toward a Ph.D. in an academic institution. Fellowships will be awarded to full-time students who are not also employed full-time. (Please note that the applicant must be accepted in a Ph.D. program.)	\$60,000	12/1/2020	
American Heart Association (AHA)	AHA Predoctoral Fellowship	To enhance the integrated research and clinical training of promising students who are matriculated in pre-doctoral or clinical health professional degree training programs and who intend careers as scientists, physician-scientists or other clinician-scientists, or related careers aimed at improving global cardiovascular, cerebrovascular and brain health.	At the time of application, the applicant must be: <ul style="list-style-type: none"> •enrolled in a post-baccalaureate Ph.D., M.D., D.O., D.V.M., Pharm.D., D.D.S., DrPH, or Ph.D. in nursing or equivalent clinical health science doctoral degree program, who seeks research training with a sponsor prior to embarking upon a research career. •a full-time student working towards his/her degree. At the time of award activation, the candidate must have completed initial coursework and be at the stage of the program where he/she can devote full-time effort to research or activities related to the development into an independent researcher or a related career aimed at improving global cardiovascular health.	\$63,040	12/1/2020	

The Grass Foundation	Grass Fellowship	Grass Fellowships at the Marine Biological Laboratory (MBL) in Woods Hole, Massachusetts, USA, support investigator-designed, independent research projects by scientists early in their career. Supported approaches include neurophysiology, biophysics, integrative neurobiology, neuroethology, neuroanatomy, neuropharmacology, systems neuroscience, cellular and developmental neurobiology, and computational approaches to neural systems. Grass Fellowships provide research support including laboratory space, animals, equipment and supplies for one summer at the MBL. Additionally, the investigator, his/her spouse or legal domestic partner, and dependent children are provided housing, a daily meal allowance and round-trip travel to the MBL.	Early investigators (late stage predoctoral trainees and beyond) are eligible to apply. This includes applicants with prior experience at MBL or with the Grass Foundation (MBL course alumni are encouraged to apply). Priority is given to applicants with a demonstrated commitment to pursuing a research career.	14 week Summer Program + Family housing	12/5/2020	
National Institute for Health (NIH)	Ruth L. Kirschstein National Research Service Awards for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (Parent F31)	Through this award program, promising predoctoral students will obtain individualized, mentored research training from outstanding faculty sponsors while conducting well-defined research projects in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers. The proposed mentored research training is expected to clearly enhance the individual's potential to develop into a productive, independent research scientist.	The applicant must have a baccalaureate degree and be currently enrolled in a PhD or equivalent research degree program in the biomedical, behavioral, or clinical sciences. US Citizen, National or Permanent resident.	Stipends, tuition + fees	12/8/2020	April 8, August 8, December 8
Ford Foundation	Ford Foundation Dissertation Fellowship	This competition year the program will award approximately 36 dissertation fellowships. The dissertation fellowships provide one year of support for individuals working to complete a dissertation leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree. The Ford Foundation Dissertation Fellowship is intended to support the final year of writing and defense of the dissertation. Dissertation fellowships will be awarded in a national competition administered by the National Academies of Sciences, Engineering, and Medicine (the National Academies) on behalf of the Ford Foundation. The awards will be made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level, show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students.	All U.S. citizens, U.S. nationals, and U.S. permanent residents (holders of a Permanent Resident Card), as well as individuals granted deferred action status under the Deferred Action for Childhood Arrivals Program1, Indigenous individuals exercising rights associated with the Jay Treaty of 1794, political asylees, and refugees, regardless of race, national origin, religion, gender, age, disability, or sexual orientation, Individuals with evidence of superior academic achievement (such as grade point average, class rank, honors, or other designations), Individuals committed to a career in teaching and research at the college or university level, Individuals enrolled in an eligible research-based (dissertation-required) program leading to a Ph.D. or Sc.D. degree at a non-profit (not for profit) U.S. institution of higher education who will complete the dissertation in a period of 9-12 months during the 2020-2021 academic year, Individuals who, by December 10, 2019, have completed all departmental and institutional requirements for their degree, except for writing and defense of the dissertation, and Individuals who have not earned a doctoral degree at any time, in any field	\$28,000	12/10/2020	
Newberry Library	Short-term fellowship	Short-Term Fellowships provide opportunities for individuals who have a specific need for the Newberry's collection. Postdoctoral scholars, PhD candidates, and scholars with terminal degrees who live and work outside of the Chicago metropolitan area are eligible. For exceptions to these restrictions, please read the individual fellowship descriptions listed below. Most fellowships are available for one month with a stipend of \$2,500 per month. Awardees may combine their Newberry fellowship award with sabbatical funding or other stipendiary support. Fellows are welcome to stay in residence at the Newberry beyond the terms of their fellowship, but the amount of their stipend cannot be increased beyond the initial award.	United States citizens are eligible for all Newberry Fellowships. Permanent United States residents who have had at least three years of continuous residence in the U.S. are eligible for all fellowships. Recent United States residents who have had less than three years of continuous residence in the U.S. are eligible for all fellowships except the National Endowment for the Humanities (NEH) Fellowships. Citizens of foreign nations are eligible for all fellowships except the National Endowment for the Humanities (NEH) Fellowships. Short-Term Fellowships are open to faculty members and postdoctoral scholars; PhD candidates with "All But Dissertation" (ABD) status; and scholars with terminal degrees in areas that do not offer a PhD (such as MFA, MLIS, MSW, JD, etc.).	\$2,500 per month	12/15/2020	

National Academy of Science (NAS)	Ford Foundation Predoctoral Fellowship	Through its Fellowship Programs, the Ford Foundation seeks to increase the diversity of the nation's college and university faculties by increasing their ethnic and racial diversity, maximize the educational benefits of diversity, and increase the number of professors who can and will use diversity as a resource for enriching the education of all students. Predoctoral, Dissertation, and Postdoctoral fellowships will be awarded in a national competition administered by the National Academies of Sciences, Engineering, and Medicine on behalf of the Ford Foundation.	Individuals who as of the 2020 fall semester require a minimum of three years of study to complete their Ph.D./Sc.D. degree, and have not earned a doctoral degree at any time, in any field. Individuals committed to a career in teaching and research at the college or university level.	\$81,000	12/10/2020	
IBSA Foundation for Scientific Research	The IBSA Foundation Fellowships	IBSA Foundation for scientific research funds every year talented researchers in order to promote and allow them to do great science, with 5 fellowships of 30,000 euros in the following research fields: <ul style="list-style-type: none"> • dermatology • endocrinology • fertility/urology • orthopaedics/pain medicine/rheumatology and the 2020 special edition <ul style="list-style-type: none"> • coronavirus infections - systemic and tissue-specific effects, novel targets for potential therapies 	Applicants must be under 40 years old on the deadline for the submission of proposals, they can be of any nationality and must have a degree in medicine, biology, pharmacy, biotechnology or bioengineering. Open to PhDs, post docs, and residents. For the entire duration of the grant, applicants must be active in the Host Institution	30000 euros	12/31/2020	
Technosoft Engineering	Technosoft Engineering Scholarship Program	Technosoft Engineering is offering a scholarship of \$500 to students for the year 2019. We will accept only 100% original essay. Any plagiarism will instantly lead to disqualification. Applicant must submit a 1000 words essay on either one of the below-mentioned topics to apply for the scholarship: Topic 1: Recent Developments in the field of Internet of Things; Topic 2: Challenges in Embedded System Development; Topic 3: Difference Between Robotics and Artificial Intelligence.	Any student above the age of 18 years and currently enrolled for any program/course in any School or University across the globe. Applicants under the age of 18 years will be disqualified.	\$500	12/31/2019	
Horizons School of Technology	Horizons One Fellowship		none	program tuition and possible living subsidy for 2 years of program	ongoing	
Educational Audiology Association (EAA)	EAA Doctoral Scholarship	The Doctoral Scholarship(s) sponsored by the Educational Audiology Association will be awarded on an annual basis. This financial assistance is available to practicing educational audiologists who are pursuing a doctoral degree in an area that may advance the field of educational audiology and/or benefit educational audiologists. The number and amount of the scholarship(s) will be determined annually.	The applicant must be a member of EAA, practicing as an educational audiologist and be matriculated in an official doctoral program.	\$1,000	ongoing	
NSF	Archaeology Program - Doctoral Dissertation Research Improvement Awards (Arch-DDRI)	The Archaeology Program supports anthropologically relevant archaeological research. This means that the value of the proposed research can be justified within an anthropological context. The Program sets no priorities by either geographic region or time period. It also has no priorities in regard to theoretical orientation or question and it is the responsibility of the applicant to explain convincingly why these are significant and have the potential to contribute to anthropological knowledge. While the Program, in order to encourage innovative research, neither limits nor defines specific categories of research type, most applications either request funds for field research and/or the analysis of archaeological material through multiple approaches. The Program also supports methodological projects which develop analytic techniques of potential archaeological value.	none	\$30,000	ongoing	
Autism Speaks	Dennis Weatherstone Predoctoral Fellowships		none	\$60,800 over 2 years	TBD	

IDSA Education and Research Foundation (Sharitable arm of the Infectious Diseases Society of America)	Medical Scholars Program		none	\$2,000	TBD	TBD
Germline Exposures	Examining molecular impacts of drug exposures on developing germline, and implications for nongenetic inheritance		None	\$25,000	Expression of Interest: 5/31/2020; Full App: 10/31/2018	10/31/2018
Germline Exposures	Intensive Investigation of Multi-Hit Families Affected by Autism and Related Neurodevelopmental Disorders		None	\$25,000	Expression of Interest: 6/30/2018; Full App: 10/31/2018	10/31/2018
The Council on Library and Information Resources (CLIR)	Mellon Fellowships for Dissertation Research in Original Sources	<p>The Council on Library and Information Resources (CLIR) is pleased to offer fellowships generously funded by The Andrew W. Mellon Foundation for dissertation research in the humanities or related social sciences in original sources. The purposes of this fellowship program are to:</p> <ul style="list-style-type: none"> • help junior scholars in the humanities and related social science fields gain skill and creativity in developing knowledge from original sources • enable dissertation writers to do research wherever relevant sources may be, rather than just where financial support is available • encourage more extensive and innovative uses of original sources in libraries, archives, museums, historical societies, and related repositories in the U.S. and abroad, and • provide insight from the viewpoint of doctoral candidates into how scholarly resources can be developed for access most helpfully in the future. <p>The program offers about fifteen competitively awarded fellowships a year. Each provides a stipend of \$2,000 per month for periods ranging from 9-12 months. Each fellow will receive an additional \$1,000 upon participating in a symposium on research in original sources and submitting a report acceptable to CLIR on the research experience. Thus the maximum award will be \$25,000.</p>		\$25,000	Not currently accepting applications	
Social Science Research Council (SSRC)	Dissertation Proposal Development Fellowship (DPDF)	<p>The Dissertation Proposal Development Fellowship (DPDF) is a strategic fellowship program designed to help graduate students in the humanities and social sciences formulate doctoral dissertation proposals that are intellectually pointed, amenable to completion in a reasonable time frame, and competitive in fellowship competitions.</p> <p>The program is organized around distinct "research fields," subdisciplinary and interdisciplinary domains with common intellectual questions and styles of research. Each year, an SSRC Field Selection Committee selects five fields proposed by pairs of research directors who are tenured professors at different doctoral degree-granting programs at U.S. universities. Research directors receive a stipend of \$10,000. Graduate students in the early phase of their research, generally 2nd and 3rd years, apply to one of five research fields led by the two directors; each group is made up of twelve graduate students. Fellows participate in two workshops, one in the late spring that helps prepare them to undertake predissertation research on their topics; and one in the early fall, designed to help them synthesize their summer research and to draft proposals for dissertation funding. Fellows are eligible to apply for up to \$5000 from SSRC to support predissertation research during the summer.</p>	<ul style="list-style-type: none"> • Applicants must have been currently matriculated in PhD programs at accredited universities in the United States. • Both US citizens and noncitizens were eligible. • Progress within graduate program: <ul style="list-style-type: none"> • Applicants must have completed at least two full years of graduate study (MA and/or PhD) by the end of the spring workshop. • Applicants must have been on track to obtain approval of their dissertation proposals after the fall workshop but before the end of the upcoming academic year. • Applicants were obligated to commit to attend the spring and fall workshops in their entirety and to conduct at least six weeks of summer research away from their home institutions between the spring and fall workshops. • Students who had already submitted dissertation research proposals to their departments for approval or to funding agencies for support of their dissertation research were not eligible to apply. 	\$5,000		

<p>Social Science Research Council (SSRC)</p>	<p>International Dissertation Research Fellowships</p>	<p>The IDRF program supports distinguished graduate students in the humanities and social sciences conducting dissertation research outside the United States. Seventy-five fellowships will be awarded in 2009 with funds provided by the Andrew W. Mellon Foundation.</p> <p>The IDRF program is committed to empirical and site-specific research that advances knowledge about non-U.S. cultures and societies (involving fieldwork, research in archival or manuscript collections, or quantitative data collection). The program promotes research that is situated in a specific discipline and geographical region and is engaged with interdisciplinary and cross-regional perspectives.</p> <p>Fellowships will provide support for nine to twelve months of dissertation research. Individual awards will be approximately \$20,000. No awards will be made for proposals requiring less than nine months of on-site research. The 2009 IDRF fellowship must be held for a single continuous period within the eighteen months between July 2009 and December 2010.</p>	<p>The program is open to graduate students in the humanities and humanistic social sciences—regardless of citizenship—enrolled in PhD programs in the United States. Applicants to the 2020 IDRF competition must complete all PhD requirements except on-site research by the time the fellowship begins or by December 2020, whichever comes first.</p> <p>The program invites proposals for dissertation research conducted, in whole or in part, outside the United States, on non-US topics. It will consider applications for dissertation research grounded in a single site, informed by broader cross-regional and interdisciplinary perspectives, as well as applications for multi-sited, comparative, and transregional research. Proposals that identify the United States as a case for comparative inquiry are welcome; however, proposals that focus predominantly or exclusively on the United States are not eligible.</p> <p>Applicants from select disciplines within the humanities (Art History, Architectural History, Classics, Drama/Theater, Film Studies, Literature, Musicology, Performance Studies, Philosophy, Political Theory, and Religion) may request three or more months of funding for international on-site dissertation research in combination with site-specific research in the United States, for a total of nine to twelve months of funding. All other applicants (for instance, those in Anthropology, Geography, History, Political Science, and Sociology, among others) must request nine to twelve months of on-site, site-specific dissertation research with a minimum of six months of research outside of the United States. Research within the United States must be site-specific (e.g., at a particular archive) and cannot be at the</p>	<p>\$20,000</p>	<p>Not currently accepting applications</p>	
<p>Charlotte W. Newcombe Foundation</p>	<p>Doctoral Dissertation Fellowships</p>	<p>The Charlotte W. Newcombe Doctoral Dissertation Fellowships are designed to encourage original and significant study of ethical or religious values in all fields of the humanities and social sciences, and particularly to help Ph.D. candidates in these fields complete their dissertation work in a timely manner. In addition to topics in religious studies or in ethics (philosophical or religious), dissertations appropriate to the Newcombe Fellowship competition might explore the ethical implications of foreign policy, the values influencing political decisions, the moral codes of other cultures, and religious or ethical issues reflected in history or literature.</p>	<p>Newcombe Fellowships are awarded annually following a rigorous national selection process. Eligibility for Newcombe Doctoral Dissertation Fellowships is limited to students enrolled in doctoral programs in the humanities and social sciences at graduate schools in the United States. Awards are for twelve months of dissertation writing. The 2016 Newcombe Application is now closed. The application will open again in August 2016 for 2017-18. Fellows for 2016 have been announced. Click here for the list.</p> <p>To be eligible for selection, the graduate scholar must be preparing a dissertation in which ethical or religious values are a central concern. According to the Woodrow Wilson National Scholarship Foundation, "...dissertations appropriate to the Newcombe Fellowship competition might explore the ethical implications of foreign policy, the values influencing political decision, the moral codes of other cultures, and religious or ethical issues reflected in history or literature."</p>			
<p>Association for Jewish Studies</p>	<p>AJS Dissertation Completion Fellowship</p>	<p>Recipients of the AJS Dissertation Completion Fellowships (in 2016) receive a \$20,000 stipend, as well as professional development opportunities, through a mid-year workshop and ongoing contact with mentors during the fellowship year. Particular attention will be dedicated to training the fellows to speak publicly, in an accessible fashion, about their work. This program is generously supported through a grant from Legacy Heritage Fund.</p>		<p>\$20,000</p>		
<p>PhRMA Foundation</p>	<p>Predoctoral Fellowships</p>	<p>The PhRMA Foundation Predoctoral Fellowship programs provide up to two years of stipend funding to support full-time advanced students who will have completed most of their pre-thesis requirements (at least two years of study) and be engaged in thesis research as PhD candidates by the time the award is activated.</p>	<p>Predocctoral Fellowships are designed for students who expect to complete their PhD requirements in two years or less from the time the fellowship begins.</p> <p>Students just starting graduate school should not apply. An applicant must be a full-time, in-residence PhD candidate. The department chair or graduate officer is expected to verify the applicant's doctoral candidacy.</p>	<p>\$50,000</p>
