Knowledge to Action and the Business of Health

Bloomberg School of Public Health | Carey Business School | School of Medicine
School of Nursing

ABOUT THE CLUSTER

This cluster will address the pressing social need of achieving better health outcomes in light of ever-rising health spending. Promising discoveries for meeting this challenge often fail to become widely adopted in the face of numerous complexities. By leveraging the Hopkins Business of Health Initiative and the learning health system hubs at Johns Hopkins, this transdisciplinary cluster will generate solutions aimed at aligning incentives and integrating the science of systems, economics, and management.

Cluster scholar backgrounds may include:

- Management and Organization Science
- Health Economics and Health Policy Research
- Health Services Research
- Systems and Decision Science

Team members in this cluster will work within JHU’s unique collaborative culture and receive additional administrative and financial support to ensure their interdisciplinary research is truly impactful and world-changing.

LEADS:

Kathryn McDonald, Bloomberg Distinguished Professor of Health Systems, Quality and Safety
Daniel Polsky, Bloomberg Distinguished Professor of Health Policy and Economics
Kathleen Sutcliffe, Bloomberg Distinguished Professor of Medicine and Business
Valerie Suslow, Professor, Carey Business School

RECRUITING:

4 Bloomberg Distinguished Professors
4 junior faculty

The Bloomberg Distinguished Professorships (BDP) Cluster Initiative at Johns Hopkins University is part of an ambitious investment in interdisciplinary research to bridge academic disciplines and open novel fields of inquiry to tackle society’s most complex problems. Recruiting 130 researchers and scholars, the BDP program was established in 2013 and expanded in 2021 and 2023 with gifts from Michael R. Bloomberg, JHU alumnus and 108th mayor of New York City. Many of these positions are dedicated to the Cluster Initiative to recruit scholars and innovators who will draw on each other’s unique strengths to make meaningful impact and generate solutions.
